**INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
**(REVIEWED NOT AUDITED)**

**30 JUNE 2025**

**REPORT ON REVIEW OF INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS  
TO THE BOARD OF DIRECTORS OF ARAB BANKING CORPORATION (JORDAN)  
AMMAN - JORDAN**

### **Introduction**

We have reviewed the accompanying interim condensed consolidated financial statements of Arab Banking Corporation (Jordan) (Public Shareholding Company) and its subsidiary (the Bank) as of 30 June 2025, comprising of the interim condensed consolidated statement of financial position as of 30 June 2025, interim condensed consolidated income statement, interim condensed consolidated comprehensive income, interim condensed consolidated statement of changes in equity and interim condensed consolidated statement of cash flows for the six months period then ended and explanatory notes. The board of directors is responsible for the preparation and presentation of these interim condensed consolidated financial statements in accordance with IAS 34 (Interim Financial Reporting). Our responsibility is to express a conclusion on these interim condensed consolidated financial statements based on our review.

### **Scope of review**

We conducted our review in accordance with the International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

### **Conclusion**

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial statements are not prepared, in all material respects, in accordance with International Accounting Standard 34.

Amman – Jordan

**The accompanying notes from 1 to 35 are part of these interim condensed consolidated financial statements and should be read with them**

**1. General**

Arab Banking Corporation (Jordan) was established as a public shareholding company on 21 January 1990 in accordance with the Companies Law No (1) of 1989 with headquarter in Amman - Jordan.

The Bank provides banking services through its head office in Amman and its 22 branches and an office in Jordan and the subsidiary Company (Arab Co-Operation for Financial Investments Company).

The Bank's shares are listed and traded in Amman Stock Exchange.

The financial statements of the Bank and its subsidiary "the Bank" are consolidated in the Arab Banking Corporation – Bahrain financial statements (The Parent Company).

The interim condensed consolidated financial statements have been approved by the Board of Directors of the Bank on 24 July 2025.

**2. Basis of Preparation and Material Accounting Policy Information**

**Basis of Preparation of The Interim Condensed Consolidated Financial Statements**

The interim condensed consolidated financial statements have been prepared for the period ended 30 June 2025 in accordance with International Accounting Standard Number (34) (Interim Financial Reporting).

The accompanying interim condensed consolidated financial statements are prepared on the historical cost basis, except for financial assets at fair value through other comprehensive income and financial derivatives, which are presented at fair value as of the date of the interim condensed consolidated financial statements.

The reporting currency of the interim condensed consolidated financial statements is the Jordanian Dinar, which is the functional currency of the Bank.

The accompanying interim condensed consolidated financial statements do not include all the information and disclosures to the financial statements required in the annual financial statements, which are prepared in accordance with International Financial Reporting Standards. Moreover, the results of the Bank's operations for the six-month period ended on 30 June 2025 do not necessarily represent indications of the expected results for the year ending 31 December 2025. Therefore, these interim condensed consolidated financial statements should be read with the Bank's annual report for the year ended 31 December 2024 and it does not contain the appropriation of profit on for the six months period ended at 30 June 2025, which is usually performed at the year end.

**Basis of Consolidation of the Interim Condensed Consolidated Financial Statements**

The interim condensed consolidated financial statements comprise of the financial statements of the Bank and the subsidiary controlled by it. Control is achieved when the Bank is capable of managing the main activities of its subsidiaries and is exposed, or has rights, to variable returns from its involvement with the subsidiaries and has the ability to affect those returns through its power over the subsidiaries. All balances, transactions, revenues, and expenses between the bank and the subsidiaries are eliminated.

**ARAB BANKING CORPORATION (JORDAN)****(PUBLIC SHAREHOLDING COMPANY)****NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****30 JUNE 2025 (REVIEWED NOT AUDITED)**

The financial statements of the subsidiary are prepared for the same reporting period as of the Bank, using consistent accounting policies. If the subsidiary has a different accounting policy than the Bank, necessary adjustments will be reflected to match the Bank's accounting policies.

As of 30 June 2025, the bank owns the following subsidiary:

Company Name	Paid In capital	Ownership Percentage	Nature of the company's business			Acquisition date
			JD	Location	Business	
Arab Co-Operation For Financial Investments Company	15,600,000	100%	Financial Brokerage	Jordan	25 January 1990	

The subsidiary financial results are consolidated in the interim condensed consolidated statement of income from the date of their acquisition, which is the date on which the control of the bank on the subsidiary takes place. In addition, the financial results of the disposed subsidiaries are consolidated in the interim condensed consolidated statement of income up to the date of the disposal, which is the date on which the Bank loses control over the subsidiary.

### **3. Changes in Accounting Policies**

The accounting policies used in the preparation of the interim condensed consolidated financial statements are consistent with those used in the preparation of the annual consolidated financial statements for the year ended 31 December 2024 except for the adoption of new amendments on the standards effective as of 1 January 2025 shown below:

#### **Lack of exchangeability – Amendments to IAS 21**

In August 2023, the IASB issued amendments to IAS 21 The Effects of Changes in Foreign Exchange Rates to specify how an entity should assess whether a currency is exchangeable and how it should determine a spot exchange rate when exchangeability is lacking. The amendments also require disclosure of information that enables users of its financial statements to understand how the currency not being exchangeable into the other currency affects, or is expected to affect, the entity's financial performance, financial position and cash flows.

The amendments are effective for annual reporting periods beginning on or after 1 January 2025. When applying the amendments, an entity cannot restate comparative information.

The amendments had no material impact on the Bank's interim condensed consolidated financial statements.

**4. Significant Judgments and Estimates used**

**Use of judgements and estimates:**

The preparation of the interim condensed consolidated financial statements requires management to make estimates and assumptions that affect the reported amounts of financial assets and liabilities and disclosure of contingent liabilities. These estimates and assumptions also affect the revenues and expenses and the resultant provisions as well as fair value changes reported in equity. In particular, considerable judgment by management is required in the estimation of the amount and timing of future cash flows. The estimates mentioned are necessarily based on multiple assumptions and factors that involve varying degrees of judgment and uncertainty, and actual results may differ from the estimates as a result of changes in the conditions and circumstances surrounding those estimates in the future.

The Bank's management believes that its estimates within the interim condensed consolidated financial statements are reasonable and detailed as follows:

**A. Expected credit losses for financial instruments at amortized cost:**

In determining provision for expected credit loss for direct credit facilities, important judgement is required from the Bank's management in the estimation of the amount and timing of future cash flows as well as an assessment of whether the credit risk on the financial asset has increased significantly since initial recognition and incorporation of forward-looking information in the measurement of expected credit losses.

The following are the key estimates and judgments used:

**• Assessment of Significant Increase in Credit Risk:**

The assessment of a significant increase in credit risk is performed on a relative basis. To assess whether the credit risk on a financial asset has increased significantly since origination, the Bank compares the risk of default occurring over the expected life of the financial asset at the reporting date to the corresponding risk of default at origination, using key risk indicators that are used in the Bank's existing risk management processes. This assessment is used to classify customers and portfolios to credit stages, which are, stage 1 (Initial recognition), stage 2 (Credit Quality Deterioration) and stage 3 (Credit Impairment).

**• Macroeconomic Factors, Forward Looking Information (FLI) and Multiple Scenarios:**

The measurement of expected credit losses for each stage and the assessment of significant increases in credit risk must consider information about past events and current conditions as well as reasonable and supportable forecasts of future events and economic conditions. The estimation and application of forward-looking information will require significant judgment from the bank's management.

PD, Loss Given Default (LGD) and Exposure At Default (EAD) inputs used to estimate Stage 1 and Stage 2 credit loss allowances are modelled based on the macroeconomic variables (or changes in macroeconomic variables) that are most closely correlated with credit losses in the relevant portfolio.

Each of the macroeconomic scenarios used in calculating the expected credit loss is associated with variable macroeconomic factors.

In our estimates used in calculating the expected credit losses for stage 1 and stage 2 using discounted weighted scenarios, which include future macroeconomic information for the next three years.

The bank uses the following macroeconomic indicators when performing futuristic forecasts for the countries that it operates in:

Gross Domestic Product  
Stock market index price

**ARAB BANKING CORPORATION (JORDAN)**

**(PUBLIC SHAREHOLDING COMPANY)**

**NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

**30 JUNE 2025 (REVIEWED NOT AUDITED)**

---

The bank uses 3 scenarios to reach a probable value when to estimate the expected credit losses as follows:

Main scenario (Baseline) weighted 40%

Best scenario (Optimistic S1) weighted 30%

Worst case scenario 1 (Pessimistic S3) weighted 30%

These scenarios are extracted from Data Buffet system of Moody's in 14 historical values format and 20 future estimated value (Forecasted) for all the previously mentioned macroeconomic indicators.

The probable options are estimated according to the best approximation related to the historical probability and current affairs. The probable scenarios are evaluated every three months. All scenarios are implemented to all the wallets that are subject to expected credit losses.

**Definition of default:**

The definition of default used in the measurement of expected credit losses and the assessment to determine movement between stages is consistent with the definition of default used for internal credit risk management purposes. IFRS 9 does not define default but contains a rebuttable presumption that default has occurred when an exposure is greater than 90 days past due.

**Exposure at default:**

When measuring ECL, the Bank must consider the maximum contractual period over which the Bank is exposed to credit risk. All contractual terms should be considered when determining the expected life, including prepayment options and extension and rollover options. For certain revolving credit facilities that do not have a fixed maturity, the expected life is estimated based on the period over which the Bank is exposed to credit risk and where the credit losses would not be mitigated by management.

**B. Income tax**

Income tax expenses represent accrued tax and deferred tax.

Income tax expenses are accounted for on the basis of taxable income. Moreover, taxable income differs from income declared in the consolidated financial statements because the latter includes non-taxable revenues or taxable expenses disallowed in the current year but deductible in subsequent years accumulated losses acceptable by the tax law and items not accepted for tax purposes or subject to tax.

Tax is calculated on the basis of the tax rates according to the prevailing laws regulations and instructions of the countries where the bank operates.

Deferred tax is tax expected to be paid or recovered as a result of temporary timing differences between the value of the assets and liabilities in the consolidated financial statements and the value of the taxable amount. Deferred tax is calculated on the basis of the liability method in the consolidated statement of financial position according to the rates expected to be applied when the tax liability is settled, or tax assets are recognized.

Deferred tax assets and liabilities are reviewed as of the date of the consolidated financial statements and reduced in case it is expected that no benefit will arise from payment or the elimination of the need for deferred tax liabilities partially or totally.

**C. Fair Value**

Fair value represents the closing market price (Assets Purchasing/ Liabilities Selling) of financial assets and derivatives on the date of the consolidated financial statements in active markets. In case declared market, prices do not exist active trading of some financial assets and derivatives is not available or the market is inactive fair value is estimated by one of several methods including the following:

- Comparison with the fair value of another financial asset with similar terms and conditions.
- Analysis of the present value of expected future cash flows for similar instruments.
- Adoption of the option pricing models.

Evaluation of long-term assets and liabilities that bear no interest through discounting cash flows and amortizing premium/ discount using the effective interest rate method within interest revenue/ expense in the consolidated statement of income.

The valuation methods aim to provide a fair value reflecting the market's expectations taking into consideration the market expected risks and expected benefits when the value of the financial assets. When the financial assets fair value can't be reliably measured, they are stated at cost less any impairment.

**5. Cash and Balances at the Central Bank of Jordan**

This item consists of the following:

	30 June 2025	31 December 2024
	JD (Reviewed not audited)	JD (Audited)
Cash in vaults	6,884,122	7,012,636
<b>Balances at Central Bank of Jordan:</b>

**30 JUNE 2025 (REVIEWED NOT AUDITED)**

---

**20. Reserves:**

The details of the reserves as of 30 June 2025 and 31 December 2024 are as follows:

**Statutory Reserve**

The amount accumulated in this account is transferred from the annual income before tax at 10% during the year and previous years according to the companies Law, this reserve cannot be distributed to shareholders.

**Voluntary Reserve**

The total amount in this balance represents what has been transferred from the annual income before tax at a rate of no more than 20% during the period as well as previous years. The voluntary reserve is used in situations specified by the board of directors and the general assembly has the authority to distribute all or part of this reserve as dividends to shareholders.

The bank has not deducted the legal reserves and fees according to the provisions of the Companies Law and the issued instructions, as these statements are interim. The deductions will be made at the end of the financial year.

**21. Fair Value Reserve – Net**

This item consists of the following:

	<b>30 June 2025</b>	<b>31 December 2024</b>
	<b>JD</b>	<b>JD</b>
	<b>(Reviewed not audited)</b>	<b>(Audited)</b>
