CHAIRMAN'S REPORT

Dear Shareholders,

2025 was an exceptional year for Waha Capital, with net profit attributable to shareholders reaching AED 1.012 billion, representing one of the strongest financial results in the group's history. This result reflected the consistent execution of our long-term strategy, disciplined capital allocation, and the strength of our diversified investment activities.

During the year, Waha Capital benefited from realised investment gains, fair-value uplifts, and an increasing contribution from recurring income. These factors, together with continued cost discipline, including balance sheet deleveraging, supported a significant improvement in profitability and financial resilience.

Capital efficiency remained a central focus for the Board. The successful exit from Optasia during the year demonstrated Waha Capital's ability to originate, grow, and monetise investments in a disciplined manner, while recycling capital into priority areas in line with our long-term objectives.

In the fourth quarter, Waha Capital adopted Investment Entity accounting under IFRS 10, reflecting the continued evolution of the group's business model as a long-term investor and asset manager. This presentational update aligns financial reporting more closely with our investment-led model, providing investors with clearer insight into the group's core investment performance and fee-based income.

Our investment capabilities and governance standards continued to receive external recognition. Waha Capital was ranked among Forbes Middle East's Top 40 Asset Managers for the fourth consecutive year, while recognition for leadership in sustainability reflects our ongoing focus on responsible investment and long-term value creation.

Looking ahead, Waha Capital enters the next phase of its development with a strong balance sheet, a clearer strategic focus, and improved earnings visibility. The Board remains committed to prudent capital allocation, robust governance, and the creation of sustainable long-term value for shareholders.

I extend my sincere appreciation to the management team and employees for their dedication and professionalism, which were instrumental in delivering these results.

Waleed Al Mokarrab Al Muhairi
Chairman

Independent auditor's report

To the Shareholders of Al Waha Capital P.J.S.C.

Report on the audit of the consolidated financial statements

Our opinion

In our opinion, the consolidated financial statements present fairly, in all material respects, the consolidated financial position of Al Waha Capital PJSC (the “Company”) and its subsidiaries (together the “Group”) as at 31 December 2025 and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with IFRS Accounting Standards.

What we have audited

The Group's consolidated financial statements comprise:

- the consolidated statement of financial position as at 31 December 2025;
- the consolidated statement of profit or loss for the year then ended;
- the consolidated statement of comprehensive income for the year then ended;
- the consolidated statement of changes in equity for the year then ended;
- the consolidated statement of cash flows for the year then ended; and
- the notes to the consolidated financial statements, comprising material accounting policy information and other explanatory information.

Independent auditor’s report (Continued)

To the Shareholders of Al Waha Capital P.J.S.C.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditor’s responsibilities for the audit of the consolidated financial statements* section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Group in accordance with the International Code of Ethics for Professional Accountants (including International Independence Standards) issued by the International Ethics Standards Board for Accountants (IESBA Code) as applicable to audits of financial statements of public interest entities and the ethical requirements that are relevant to our audit of the consolidated financial statements in the United Arab Emirates. We have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code.

Our audit approach

Overview

Key Audit Matters	Change in business model – Investment entity accounting
	Valuation of financial assets measured at fair value and classified as Level 3 in the fair value hierarchy

Independent auditor's report (Continued)

To the Shareholders of Al Waha Capital P.J.S.C.

Our audit approach (continued)

As part of designing our audit, we determined materiality and assessed the risks of material misstatement in the consolidated financial statements. In particular, we considered where management made subjective judgements; for example, in respect of significant accounting estimates that involved making assumptions and considering future events that are inherently uncertain. As in all of our audits, we also addressed the risk of management override of internal controls, including among other matters consideration of whether there was evidence of bias that represented a risk of material misstatement due to fraud.

We tailored the scope of our audit in order to perform sufficient work to enable us to provide an opinion on the consolidated financial statements as a whole, taking into account the structure of the Group, the accounting processes and controls, and the industry in which the Group operates.

Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Independent auditor’s report (Continued)

To the Shareholders of Al Waha Capital P.J.S.C.

Our audit approach (continued)

Key audit matters (continued)

Key audit matter	How our audit addressed the key audit matter
Change in business model – Investment entity accounting	
<p>Following the change in business model during the year to that of an investment entity, the Group was required to assess its compliance with the investment entity criteria in accordance with IFRS 10. This determination required considerable judgement and resulted in fundamental changes in accounting policies and disclosures, including the deconsolidation of subsidiaries and their subsequent measurement at fair value.</p> <p>We considered this as a key audit matter considering the use of significant judgments and estimates underlying the change in business model which have a material impact on the consolidated financial statements of the Group.</p> <p>Refer to the relevant notes to the consolidated financial statements, in particular, note 3a(i) for the impact of the change in business models and related disclosures.</p>	<p>We performed the following procedures:</p> <ul style="list-style-type: none"> • We reviewed the Board-approved 2025–2029 Business Plan and the Audit Committee’s approval of the change in business model. • We reviewed the management’s accounting position paper, updated investment manuals, Key Performance Indicators (KPIs), the documented exit strategies, and other implementation supporting documents that support compliance with IFRS 10 requirements. • We assessed the Group's compliance with the criteria specified in IFRS 10 in order to qualify as an investment entity. • We reviewed management's change in accounting for subsidiaries which were previously consolidated, to measurement of the subsidiaries at fair value following the change in business model. • We assessed the appropriateness of the disclosures made in the consolidated financial statements in relation to the impact of the change in business model and the changes in accounting policies, including management judgements around the adoption of the investment entity model.

Independent auditor’s report (Continued)

To the Shareholders of Al Waha Capital P.J.S.C.

Our audit approach (continued)

Key audit matters (continued)

Key audit matter	How our audit addressed the key audit matter
Valuation of financial assets measured at fair value and classified as Level 3 in the fair value hierarchy	
<p>As at 31 December 2025, the Group had Level 3 financial assets measured at fair value of AED 4.8 billion which represents 86% of the total assets. In accordance with IFRS 13 - ‘Fair Value Measurement’, the Group determines the fair values of these financial assets using a combination of valuation approaches such as discounted cash flows that use unobservable inputs such as discount rates and market multiples, market approach, income approach and net asset valuations (NAVs), which require the use of significant estimation and judgement.</p> <p>We determined that the assessment of the fair value of Level 3 financial assets is a key audit matter given the degree of estimation uncertainty involved in valuing these assets and the significance of the judgments, assumptions and estimates made by the management in arriving at the valuations.</p> <p>Refer to note 32 f (a) to the consolidated financial statements for further details on the valuation of Level 3 financial assets measured at fair value including the use of significant unobservable inputs.</p>	<p>We have performed the following audit procedures:</p> <ul style="list-style-type: none"> • Understanding management’s process for the valuation of unquoted financial assets measured at fair value and classified as Level 3 in the fair value hierarchy. • Testing the fair values of a sample of unquoted investments by performing the following procedures: <ul style="list-style-type: none"> ○ Involving our internal valuation experts to assess the appropriateness of the judgments involved, the complexity of the underlying valuations, the valuation methodology adopted, and to evaluate the reasonableness of the key unobservable inputs and assumptions, such as discount rates, market multiples, income approach used in the valuation models. ○ Obtaining evidence to corroborate and challenge the data supporting valuation assumptions, including review of relevant financial information. ○ Testing mathematical accuracy of the valuation computations applied in management’s valuation models. ○ Evaluating competencies, capabilities, and objectivity of external valuers engaged by management.

Independent auditor's report (Continued)

To the Shareholders of Al Waha Capital P.J.S.C.

Our audit approach (continued)

Key audit matters (continued)

Key audit matter	How our audit addressed the key audit matter
	<ul style="list-style-type: none">• Obtaining and inspecting the net asset value statements for a sample of unquoted fund investments and reconciling these statements with the respective latest available audited financial statements of the fund.• Assessing the adequacy of disclosures made in the consolidated financial statements in accordance with IFRS Accounting Standards.

Other information

Management is responsible for the other information. The other information comprises the Chairman's Report, Management Discussion and Analysis Report (but does not include the consolidated financial statements and our auditor's report thereon) which we obtained prior to the date of this auditor's report, and the Annual report, which is expected to be made available to us after that date.

Our opinion on the consolidated financial statements does not cover the other information and we do not and will not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information that we obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Independent auditor's report (Continued)

To the Shareholders of Al Waha Capital P.J.S.C.

Other information (continued)

When we read the Annual Report, if we conclude that there is a material misstatement therein, we are required to communicate the matters to those charged with governance.

Responsibilities of management and those charged with governance for the consolidated financial statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRS Accounting Standards and their preparation in compliance with the applicable provisions of the UAE Federal Decree-Law No. (32) of 2021, as amended, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

Auditor's responsibilities for the audit of the consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

Independent auditor's report (Continued)

To the Shareholders of Al Waha Capital P.J.S.C.

Auditor's responsibilities for the audit of the consolidated financial statements (continued)

As part of an audit in accordance with ISAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Independent auditor's report (Continued)

To the Shareholders of Waha Capital P.J.S.C.

Auditor's responsibilities for the audit of the consolidated financial statements (continued)

- Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the Group as a basis for forming an opinion on the consolidated financial statements. We are responsible for the direction, supervision and review of the audit work performed for purposes of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on other legal and regulatory requirements

Further, as required by the UAE Federal Decree-Law No. (32) of 2021, as amended, we report that:

- i) we have obtained all the information we considered necessary for the purposes of our audit;

Independent auditor's report (Continued)

To the Shareholders of Al Waha Capital P.J.S.C.

Report on other legal and regulatory requirements (continued)

Further, as required by the UAE Federal Decree-Law No. (32) of 2021, as amended, we report that:

- ii) the consolidated financial statements have been prepared and comply, in all material respects, with the applicable provisions of the UAE Federal Decree-Law No. (32) of 2021, as amended;
- iii) the Group has maintained proper books of account;
- iv) the financial information included in Chairman's Report and the Management Discussion and Analysis Report is consistent with the books of account of the Group;
- v) as disclosed in notes 5 and 13 to the consolidated financial statements the Group has purchased or invested in shares during the year ended 31 December 2025;
- vi) note 29 to the consolidated financial statements discloses material related party transactions and the terms under which they were conducted;
- vii) based on the information that has been made available to us, nothing has come to our attention which causes us to believe that the Group has contravened during the year ended 31 December 2025 any of the applicable provisions of the UAE Federal Decree-Law No. (32) of 2021, as amended, or in respect of the Company, its Articles of Association which would materially affect its activities or its financial position as at 31 December 2025; and
- viii) note 24 to the consolidated financial statements discloses the social contributions made during the year ended 31 December 2025.

The notes numbered 1 to 35 are an integral part of these consolidated financial statements.
The independent auditor's report on the consolidated financial statements is set out on pages 2 to 11.

Notes to the consolidated financial statements

1 Legal status and principal activities

Al Waha Capital PJSC (the “Company”) is a public joint stock company with limited liability, formed in the Emirate of Abu Dhabi, United Arab Emirates, by Emiri Decree No. 10 dated 20 May 1997 and incorporated on 12 July 1997.

These consolidated financial statements comprise the results and financial position of the Company and its subsidiaries (collectively referred to as the “Group”).

During the year, the Company reassessed its business model and activities and determined that it meets the definition of an investment entity under IFRS 10.

The Company is engaged in investment management activities carried out directly and through its subsidiaries. The Company’s objective is to generate returns from capital appreciation and investment income by investing in a diversified portfolio across public markets, industrial real estate, investments in infrastructure, healthcare, fintech and oil and gas.

The Group’s investment activities are managed and evaluated on a fair value basis, consistent with the manner in which information is provided to key management personnel. Subsidiaries that provide investment-related services support the Group in executing its investment strategy.

2 Basis of preparation

(a) Statement of compliance

The consolidated financial statements have been prepared in accordance with IFRS Accounting Standards (IFRS) and applicable requirements of the UAE laws.

(b) Basis of measurement

The consolidated financial statements have been prepared on the historical cost basis except for investments in unconsolidated subsidiaries, associates and joint ventures that are measured at fair value through profit or loss in accordance with IFRS 10 and IFRS 9, investment properties measured at fair value, and certain other financial instruments measured at fair value at the end of each reporting period, as explained in the accounting policies below.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group considers the characteristics of the asset or liability if market participants would consider those characteristics when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these consolidated financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of IFRS 2, leasing transactions that are within the scope of IFRS 16, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in IAS 2 or value in use in IAS 36.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

Notes to the consolidated financial statements (continued)

2 Basis of preparation (continued)

(c) Functional currency and presentation currency

The individual financial statements of each Group company are presented in the currency of the primary economic environment in which it operates (its functional currency). For the purpose of these consolidated financial statements, the results and financial position of the Group are presented in United Arab Emirates Dirhams ("AED"), which is the Group's presentation currency. All financial information presented in AED has been rounded to the nearest thousand, unless otherwise stated.

(d) New and revised IFRS

(i) *New and revised IFRSs adopted with no material effect on the consolidated financial statements*

In the current year, the Group has adopted new amendment to IFRS Accounting Standards issued by the International Accounting Standards Board (IASB) that are mandatorily effective for an accounting period that begins on or after 1 January 2025, as follows:

<u>New and revised IFRSs</u>	<u>Effective for annual periods beginning on or after</u>
Amendments to IAS 21 - <i>Lack of exchangeability</i>	1 January 2025

The application of these revised and new IFRS Accounting Standards has not had any material impact on the amounts reported for the current and prior years but may affect the accounting for future transactions or arrangements.

(ii) *New and revised IFRSs in issue but not yet effective and not early adopted*

The Group has not applied the following new and revised IFRS Accounting Standards that have been issued but are not yet effective:

<u>New and revised IFRSs</u>	<u>Effective for annual periods beginning on or after</u>
IFRS 18 - <i>Presentation and Disclosure in Financial Statements</i>	1 January 2027
IFRS 19 - <i>Subsidiaries without Public Accountability: Disclosures</i>	1 January 2027

Notes to the consolidated financial statements (continued)

3 Material accounting policy information

(a) Basis of consolidation

In accordance with IFRS 10, the Company meets the criteria as an investment entity and therefore is required to recognize its subsidiaries at fair value through profit or loss. It does not consolidate subsidiaries it controls, except for those that provide investment-related services. Subsidiaries that provide investment-related services are not measured at fair value through profit or loss and continue to be consolidated unless those subsidiaries themselves qualify as investment entities, in which case they are recognized at fair value through profit or loss.

(i) Investment entity exemption – unconsolidated subsidiaries

The Company adopted the Business Plan 2025-2029 in the Board of Directors meeting held on 10 December 2024, signifying a substantial transformation in its business model from Development and Operations model to an Incubate-Stabilize-Mature model across all operating segments. As part of the revised Business Model, it was concluded that the underlying investments of the Company would be managed on a fair value basis, and that there would be clear and defined exit strategies for every investment. Accordingly, the Company considered its business purpose and activities and determined that it meets the definition of an investment entity in accordance with IFRS 10. In line with the Board mandate, the Company prepared to implement the new incubate-stabilize-mature model and undertook the following key actions:

- Presented a report to the Audit Committee on 13 May 2025, highlighting the objectives of the new business model and the next steps to be undertaken for the classification of Waha as an Investment entity, along with proforma results of Waha as an Investment entity.
- Identifying gaps to align with the objective of incubate-stabilize-mature and updated/developed:
 - Investment manual for Private Investments in June 2025 in line with the new business model and received approval from the Management Committee on 15 July 2025.
 - Investment manual for Waha Land in June 2025 in line with the new business model and received approval from the Management Committee on 15 July 2025.
 - Exit strategies for Waha Land and Private Investments and received approval from the Management Committee on 15 July 2025.
- Updated existing KPIs incorporating fair value as an indicator of investment performance and received approval from the Management Committee on 15 July 2025.
- Considered the application of the Investment Entity requirements in IFRS 10 and how these apply to the Group's new business model.

In reaching this conclusion, management considered the following required characteristics and typical features set out in IFRS 10:

- Business purpose: The Group's objective is to invest funds solely for returns from capital appreciation, investment income, or both.
- Investment activities: The Group conducts its investment activities directly and through wholly owned subsidiaries that provide investment-related services.
- Fair value management: The performance of substantially all the Group's investments is evaluated on a fair value basis, consistent with the information provided to key management personnel.
- Multiple investors and investments: The Group has several shareholders that are not related parties and holds a diversified portfolio of investments.
- Investment strategy and exit: Investments are made with the intention of generating returns through capital appreciation and realisation events.

The Company determined that, effective 1 October 2025, it met all relevant investment entity criteria and had fully implemented the Board-approved policies, procedures, and documented exit strategies. Accordingly, from this date, the Company commenced operating as an investment entity.

Notes to the consolidated financial statements (continued)

3 Material accounting policy information (continued)

(a) Basis of consolidation (continued)

(i) Investment entity exemption – unconsolidated subsidiaries (continued)

From 1 October 2025 onward, the Company measures at fair value through profit or loss its subsidiaries and, consistent with IFRS 10, no longer consolidates subsidiaries it controls, except for those that provide investment-related services. Subsidiaries that provide investment-related services continue to be consolidated, unless such subsidiaries themselves meet the investment entity criteria, in which case they are also measured at fair value through profit or loss rather than consolidated.

As a result, the assets (including goodwill) and liabilities of these subsidiaries were derecognised at their carrying amounts as of the date when the entity qualified to apply the investment entity accounting. The carrying amount of any non-controlling interests in the former subsidiaries, including components of other comprehensive income attributable to them, was also derecognised. The difference between the carrying amount of the subsidiaries' net assets and their fair value was recognised in the Group's profit or loss attributable to the parent company. Amounts previously recognised in other comprehensive income relating to the former subsidiaries were reclassified to profit or loss or transferred directly to retained earnings in accordance with applicable IFRS Accounting Standards.

The impact of the change in status to investment entity on the Group's financial position and performance is disclosed in the relevant notes to the consolidated financial statements.

In accordance with IFRS 10, this change in status has been applied prospectively from the date on which the change occurred. Comparative information for prior periods has not been restated.

Following the date of change, these subsidiaries, which are accounted for as financial assets measured at fair value through profit or loss in accordance with IFRS 9, are reassessed at each reporting period, with changes recognised in profit or loss.

(ii) Subsidiaries providing investment-related services

Subsidiaries that provide investment-related services continue to be consolidated, as they support the Group's investment activities and do not themselves qualify as investment entities.

Consolidation of a subsidiary is achieved when the Company obtains control over the investee and ceases when the Company loses control of the investee. Control is achieved when the Company:

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

When the Company has less than a majority of the voting rights of an investee, it has power over the investee when the voting rights are sufficient to give it the practical ability to direct the relevant activities of the investee unilaterally. The Company considers all relevant facts and circumstances in assessing whether or not the Company's voting rights in an investee are sufficient to give it power, including

- the size of the Company's holding of voting rights relative to the size and dispersion of holdings of the other vote holders;
- potential voting rights held by the Company, other vote holders or other parties;
- rights arising from other contractual arrangements; and
- any additional facts and circumstances that indicate that the Company has, or does not have, the current ability to direct the relevant activities at the time that decisions need to be made, including voting patterns at previous shareholders' meetings.

The Company reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

Notes to the consolidated financial statements (continued)

3 Material accounting policy information (continued)

(a) Basis of consolidation (continued)

(ii) Subsidiaries providing investment- related services (continued)

Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of profit or loss and other comprehensive income from the date the Company gains control until the date when the Company ceases to control the investee.

Profit or loss and each component of other comprehensive income are attributed to the equity holders of the parent and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the equity holders of the parent and to the non-controlling interests.

When necessary, adjustments are made to the consolidated financial statements of subsidiaries to bring their accounting policies in line with the Group's accounting policies. All intragroup balances, equity, income, expenses, and cash flows resulting from intragroup transactions are eliminated in full on consolidation.

Changes in the Group's ownership interests in subsidiaries that do not result in the Group losing control over the subsidiaries are accounted for as equity transactions. The carrying amounts of the Group's interest and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to equity holders of the parent.

When the Group loses control of a subsidiary, a gain or loss is recognised in profit or loss and is calculated as the difference between (i) the aggregate of the fair value of the consideration received and the fair value of any retained interest and (ii) the previous carrying amount of the assets (including goodwill), and the liabilities of the subsidiary and any non-controlling interests. All amounts previously recognised in other comprehensive income in relation to that subsidiary are accounted for as if the Group had directly disposed of the related assets or liabilities of the subsidiary (i.e. reclassified to profit or loss or transferred to another category of equity as specified/permitted by applicable IFRS Accounting Standards). The fair value of any investment retained in the former subsidiary at the date when control is lost is regarded as the fair value on initial recognition for subsequent accounting under IFRS 9, or when applicable, the cost on initial recognition of an investment in an associate or a joint venture.

The Group's ownership interests in subsidiaries

The details of the Group's material subsidiaries are as follows:

Subsidiary	Country of incorporation	Principal activity	Group's shareholding	
			2025	2024
Al Waha Land LLC	UAE	Industrial Real Estate	100%	100%
WPI Health Investment LLC	UAE	Healthcare	100%	100%
Waha VAS Limited ¹	Cayman Islands	Investment in Optasia	100%	100%
Waha Energy Limited ²	Cayman Islands	Energy	100%	100%
Waha Holding RSC Limited ³	UAE	Financial investments	100%	100%
Waha Investment PrJSC	UAE	Investment manager	100%	100%
Waha Investments Ltd	UAE	Investment manager	100%	-

¹ Holding Company carrying an investment in Optasia (note 12).

² Holding Company carrying special purpose vehicle for investment in NESR Corp.

³ Holding Company carrying investments in Public Market funds (managed by Waha Investment PrJSC) and other unquoted funds within the Private Investment segment.

The Group measures investments in these subsidiaries at FVTPL, except for Waha Investment PrJSC, which is consolidated as it acts as the Group's investment manager.

Notes to the consolidated financial statements (continued)

3 Material accounting policy information (continued)

(a) Basis of consolidation (continued)

(ii) Business combinations

Acquisitions of businesses are accounted for using the acquisition method. The consideration transferred in a business combination is measured at fair value, which is calculated as the sum of the acquisition-date fair values of the assets transferred by the Group, liabilities incurred by the Group to the former owners of the acquiree and the equity interests issued by the Group in exchange for control of the acquiree. Acquisition-related costs are generally recognised in profit or loss as incurred.

At the acquisition date, the identifiable assets acquired, and the liabilities assumed are recognised at their fair value.

Goodwill is measured as the excess of the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree, and the fair value of the acquirer's previously held equity interest in the acquiree (if any) over the net of the acquisition-date amounts of the identifiable assets acquired and the liabilities assumed.

(iii) Investments in associates and joint ventures

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee, without having control or joint control over those policies.

A joint venture is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint arrangement. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

The Group account for its direct interests in associates and joint ventures using the equity method in accordance with IAS 28.

Certain investments in associates and joint ventures are held indirectly through wholly owned subsidiaries. Those subsidiaries are measured as investments at fair value as per the requirements of IFRS 10 for investment entities.

(b) Non-current assets held for sale and discontinued operations

The Group classifies non-current assets and disposal groups as held for sale if their carrying amounts will be recovered principally through a sale transaction rather than through continuing use. Non-current assets and disposal groups classified as held for sale are measured at the lower of their carrying amount and fair value less costs to sell. Costs to sell are the incremental costs directly attributable to the disposal of an asset (disposal group), excluding finance costs and income tax expense.

The criteria for held for sale classification is regarded as met only when the sale is highly probable, and the asset or disposal group is available for immediate sale in its present condition. Actions required to complete the sale should indicate that it is unlikely that significant changes to the sale will be made or that the decision to sell will be withdrawn. Management must be committed to the plan to sell the asset and the sale expected to be completed within one year from the date of the classification.

Non-current assets (and disposal groups) classified as held for sale are measured at the lower of their carrying amount and fair value less costs to sell.

Assets and liabilities classified as held for sale are presented separately as current items in the statement of financial position.

All other notes to the consolidated financial statements include amounts for continuing operations, unless indicated otherwise.

Notes to the consolidated financial statements (continued)

3 Material accounting policy information (continued)

(c) Property and equipment

Property and equipment are stated at historical cost less accumulated depreciation and any accumulated impairment loss. The cost of property and equipment is the purchase cost plus any directly attributable cost of acquisition.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance expenses are charged to the statement of profit or loss during the financial period in which they are incurred.

Depreciation is calculated using the straight-line method to allocate the assets' cost to their residual value over their estimated useful life, on the following basis:

Description	Estimated useful lives
Leasehold improvements	Life of the lease
IT equipment, furniture and fittings	3 to 5 years
Medical and other equipment	5 to 7 years
Motor vehicles	3 years

The estimated useful lives, residual values and depreciation method are reviewed at each year end, with the effect of any changes in estimate accounted for on a prospective basis.

An item of property and equipment is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset.

The gain or loss arising on the disposal or retirement of an asset is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in the consolidated statement of profit or loss.

(d) Investment properties

Applicable only to the period before 1 October 2025:

Investment properties are properties held to earn rentals and/or for capital appreciation (including property under construction for such purposes). Investment properties are measured initially at cost, including transaction costs. Cost includes all direct costs attributable to bringing the assets to the location and condition necessary for the asset to operate in the manner intended, including related staff costs, design, and for qualifying assets, borrowing costs capitalised in accordance with the Group's accounting policy. When the assets are ready for intended use, they are transferred from work-in-progress to completed properties. Subsequent to initial recognition, investment properties are measured at fair value. Gains and losses arising from changes in the fair value of investment properties are included in profit or loss in the period in which they arise.

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from the disposal. Any gain or loss arising on derecognition of the property (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in profit or loss in the period in which the property is derecognised.

Following the determination that the Group meets the definition of an investment entity in accordance with IFRS 10, the Group does not have any investment properties that need to be recognised in accordance with applicable accounting standards.

Notes to the consolidated financial statements (continued)

3 Material accounting policy information (continued)

(e) Goodwill and intangible assets

(i) Goodwill

Goodwill arising upon an acquisition of a business is carried at cost as established at the date of acquisition of the business less accumulated impairment losses, if any.

For the purposes of impairment testing, goodwill is allocated to each of the Group's cash-generating units (or groups of cash-generating units) that is expected to benefit from the synergies of the combination.

A cash-generating unit to which goodwill has been allocated is tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. Recoverable amount is the higher of fair value less costs of disposal and value in use. If the recoverable amount of the cash-generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro rata based on the carrying amount of each asset in the unit. Any impairment loss for goodwill is recognised directly in profit or loss. An impairment loss recognised for goodwill is not reversed in subsequent periods.

On disposal of the relevant cash-generating unit, the attributable amount of goodwill is included in the determination of the profit or loss on disposal.

The Group's policy for goodwill arising on the acquisition of an equity accounted investee is described at note 3 (a) (iii) above.

(ii) Other intangible assets acquired in a business combination

Other intangible assets acquired in a business combination and recognised separately from goodwill are initially recognised at their fair value at the acquisition date (which is regarded as their cost), and include trademarks, licenses contracts and software.

Subsequent to initial recognition, intangible assets acquired in a business combination are reported at cost less accumulated amortisation and accumulated impairment losses, on the same basis as intangible assets that are acquired separately. Amortisation is recognised on a straight-line basis over the estimated useful lives of intangible assets, on the following basis:

Description	Estimated useful lives
Trademarks	5 to 10 years
Software	3 to 5 years

The estimated useful lives and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis.

(iii) De-recognition of intangible assets

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognised in profit or loss when the asset is derecognised.

Notes to the consolidated financial statements (continued)

3 Material accounting policy information (continued)

(f) Impairment of tangible and intangible assets other than goodwill

At the end of each reporting period, the Group reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any).

(g) Provisions

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that the Group will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, considering the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material).

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognised as an asset if it is virtually certain that reimbursement will be received, and the amount of the receivable can be measured reliably.

(h) Inventories

Inventories are measured at the lower of cost and net realisable value. Cost is determined using the weighted average method and includes expenditure incurred in acquiring the inventories and bringing them to their existing location and condition. Net realisable value represents the estimated selling price in the ordinary course of business, less estimated selling expenses. Allowance for obsolete and slow-moving inventory is made to reduce the carrying amount of inventories to their net realisable value.

(i) Financial instruments

(i) Initial recognition

Financial assets and financial liabilities are recognised when a group entity becomes a party to the contractual provisions of the instrument except for "regular way" purchases and sale of financial assets which are recognised on trade date basis (other than derivative assets).

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition.

Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

Options which are acquired at transaction cost, with a different day one fair value based on unobservable inputs, are initially recognised at fair value; and any differences between fair value and transaction cost are deferred into unearned income, which is recycled into profit and loss account over the life of the options. Any subsequent changes on the re-measurement of fair value are presented in profit and loss account.

Notes to the consolidated financial statements (continued)

3 Material accounting policy information (continued)

(i) Financial instruments (continued)

(ii) Financial assets

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

Debt instruments

Debt instruments are classified and subsequently measured at either amortised cost or fair value on the basis of the Group's business model for managing the financial assets and the contractual cash flow characteristics of the financial assets.

Debt instruments are measured at amortised cost, net of any write down for impairment, only if (i) the asset is held within a business model whose objective is to hold assets in order to collect contractual cash flows and (ii) the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Interest calculated using the effective interest method is recognised in profit or loss and is included in 'Finance cost, net'. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

The Group may choose at initial recognition to designate a debt instrument that otherwise qualifies to be measured at amortised cost or as at fair value through profit or loss (FVTPL) if doing so eliminates or significantly reduces an accounting mismatch. All other debt instruments must be measured as at FVTPL.

Other financial assets measured at amortised cost

Trade and other receivables, loan investments and cash and bank balances are measured at amortised cost less any impairment. Interest income is recognised on an effective interest basis, except for short term receivables when the recognition of interest would be immaterial.

Cash and cash equivalents include cash on hand and deposits held with banks for working capital purposes (excluding deposits held under lien) and term and Wakala deposits of original maturity less than 3 months.

Equity instruments

A financial asset is held for trading if:

- it has been acquired principally for the purpose of selling it in the near term; or
- on initial recognition it is part of a portfolio of identified financial instruments that the Group manages together and has evidence of a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument or a financial guarantee.

Investments in equity instruments designated at FVTOCI are initially measured at fair value plus transaction costs. Subsequently, they are measured at fair value with gains and losses arising from changes in fair value recognised in other comprehensive income and accumulated in the investment revaluation reserve. The cumulative gain or loss will not be reclassified to profit or loss on disposal of the investments. The Group holds equity investments and has not elected to carry these investments at FVTOCI with changes in fair value through other comprehensive income.

Dividends on these investments in equity instruments are recognised in profit or loss when the Group's right to receive the dividends is established in accordance with IFRS 15 *Revenue from Contracts with Customers*, unless the dividends clearly represent a recovery of part of the cost of the investment. Dividends earned are recognised in profit or loss and are included in 'Income from financial investments, net'.

Notes to the consolidated financial statements (continued)

3 Material accounting policy information (continued)

(i) Financial instruments (continued)

(iii) Financial liabilities and equity instruments

Classification as debt or equity

Debt and equity instruments issued by the Group are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Group are recognised as the proceeds received, net of direct issue costs.

Repurchase of the Group's own equity instruments is recognised and deducted directly in equity. No gain or loss is recognised in profit or loss on the purchase, sale, issue or cancellation of the Group's own equity instruments.

Financial liabilities

All financial liabilities are subsequently measured at amortised cost using the effective interest method or at FVTPL.

(iv) Derecognition

The Group derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or when it transfers the financial asset in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred or in which the Group neither transfers nor retains substantially all the risks and rewards of ownership and it does not retain control of the financial asset. On derecognition of a financial asset, the difference between the carrying amount of the asset and the consideration received is recognised in:

- Profit or loss, for securities measured at amortised cost or FVTPL, or
- Other comprehensive income, for investments at FVTOCI. At the time of derecognition of FVTOCI investment any revaluation reserve is transferred to retained earnings.

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss.

(v) Offsetting

Financial assets and liabilities are offset and reported net in the consolidated statement of financial position only when there is a legally enforceable right to set off the recognised amounts and when the Group intends to settle either on a net basis, or to realise the asset and settle the liability simultaneously. Income and expenses are presented on a net basis only when permitted by the accounting standards, or for gains and losses arising from a group of similar transactions such as in the Group's trading activity.

The Group is party to a number of arrangements, including master netting agreements that give it the right to offset financial assets and financial liabilities but, where it does not intend to settle the amounts net or simultaneously, the assets and liabilities concerned are presented on a gross basis.

(vi) Repurchase and reverse repurchase contracts

Securities sold subject to a commitment to repurchase them at a predetermined price at a specified future date (repos) continue to be recognised in the consolidated statement of financial position and a liability is recorded in respect of the consideration received under borrowings. Assets purchased with a corresponding commitment to resell at a specified future date (reverse repos) are not recognised in the consolidated statement of financial position. Amounts placed under these agreements are included in 'Reverse-repo contracts' within 'Financial investments'.

Notes to the consolidated financial statements (continued)

3 Material accounting policy information (continued)

(i) Financial instruments (continued)

(vii) Foreign exchange gains and losses

The fair value of financial assets and liabilities denominated in a foreign currency is determined in that foreign currency and translated at the spot rate at the end of each reporting period. The foreign exchange component forms part of its fair value gain or loss. Therefore,

- for financial assets and liabilities that are classified as at FVTPL, the foreign exchange component is recognised in profit or loss; and
- for financial assets that are equity instruments and designated as at FVTOCI, any foreign exchange component is recognised in other comprehensive income.

For foreign currency denominated financial assets and liabilities measured at amortised cost at the end of each reporting period, the foreign exchange gains and losses are determined based on the amortised cost of the financial assets and are recognised in the 'Income from financial investments, net' line item in the consolidated statement of profit or loss.

(viii) Derivative financial instruments

The Group enters into a variety of derivative financial instruments, including futures, credit default swaps, total return swaps, interest rate swaps and foreign exchange forward contracts to manage its exposure to equity price, interest rate and foreign exchange rate risks.

Derivatives are initially recognised at fair value on the date the derivative contracts are entered into and are subsequently remeasured to their fair value at the end of each reporting period. The resulting gain or loss is recognised in the consolidated statement of profit or loss immediately unless: (i) the derivative is designated and effective as a hedging instrument, in which event the timing of the recognition in profit or loss depends on the nature of the hedge relationship or (ii) the derivative is capitalised as unearned income and subsequently recognised in profit or loss over the life of the options and warrants.

(ix) Hedge accounting

The Group uses derivative financial instruments, such as interest rate swaps, to hedge its interest rate risks. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently remeasured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

At the inception of a hedge relationship, the Group formally designates and documents the hedge relationship to which it wishes to apply hedge accounting and the risk management objective and strategy for undertaking the hedge transactions. Furthermore, at the inception of the hedge and on an ongoing basis, the Group documents whether the hedging instrument is effective in offsetting changes in fair values or cash flows of the hedged item attributable to the hedged risk, which is when the hedging relationships meet all of the following hedge effectiveness requirements:

- There is an economic relationship between the hedged item and the hedging instrument
- The effect of credit risk does not dominate the value changes that result from that economic relationship
- The hedge ratio of the hedging relationship is the same as that resulting from the quantity of the hedged item that the Group actually hedges and the quantity of the hedging instrument that the Group actually uses to hedge that quantity of hedged item.

If a hedging relationship ceases to meet the hedge effectiveness requirement relating to the hedge ratio but the risk management objective for that designated hedging relationship remains the same, the Group adjusts the hedge ratio of the hedging relationship (i.e. rebalances the hedge) so that it meets the qualifying criteria again.

Note 13 sets out details of the fair values of the derivative instruments used for hedging purposes.

Notes to the consolidated financial statements (continued)

3 Material accounting policy information (continued)

(i) Financial instruments (continued)

(ix) Hedge accounting (continued)

Cash flow hedges

The effective portion of the gain or loss on the hedging instrument is recognised in other comprehensive income in the cash flow hedge reserve, while any ineffective portion is recognised immediately in profit or loss. The cash flow hedge reserve is adjusted to the lower of the cumulative gain or loss on the hedging instrument and the cumulative change in fair value of the hedged item.

If cash flow hedge accounting is discontinued, the amount that has been accumulated in other comprehensive income must remain in accumulated other comprehensive income if the hedged future cash flows are still expected to occur. Otherwise, the amount will be immediately reclassified to profit or loss as a reclassification adjustment. After discontinuation, once the hedged cash flow occurs, any amount remaining in accumulated other comprehensive income must be accounted for depending on the nature of the underlying transaction as described above.

(x) Impairment of financial assets

Under IFRS 9, the Group recognises a loss allowance for expected credit losses on financial assets. No impairment loss is recognised for investments in equity instruments which are carried at FVTPL. The amount of expected credit losses (ECL) is updated at each reporting date to reflect changes in credit risk since initial recognition of the respective financial instrument.

The Group applies the IFRS 9 simplified approach to measuring ECL which uses a lifetime expected loss allowance for its trade and other receivables. Further, the Group applies the general approach for all other financial assets carried at amortised cost.

The Group recognises lifetime ECL when there has been a significant increase in credit risk since initial recognition. If, on the other hand, the credit risk on the financial instrument has not increased significantly since initial recognition, the Group measures the loss allowance for that financial instrument at an amount equal to 12-month ECL.

(j) Foreign currencies

In preparing the financial statements of each individual group entity, transactions in currencies other than the entity's functional currency (foreign currencies) are recognised at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated. Exchange differences on monetary items are recognised in profit or loss in the period in which they arise.

Notes to the consolidated financial statements (continued)

3 Material accounting policy information (continued)

(k) Revenue recognition

Change in status to investment entity:

Up to 30 September 2025, the Group recognised revenue from the sale of goods and services and rental income arising from the operating activities of its consolidated subsidiaries. Following the determination that the Group meets the definition of an investment entity in accordance with IFRS 10, these operating subsidiaries ceased to be consolidated from 1 October 2025.

Accordingly, no revenue, rental income or other operating income from these subsidiaries is recognised by the Group from the date of change in status. Thereafter, the Group recognises only investment-related income (such as dividend and interest income) and fair value changes on its investments in accordance with IFRS 9.

Policies applicable only for the period prior to 1 October 2025

(i) Sale of goods and services

The Group recognises revenue from contracts with customers based on a five-step model as set out in IFRS 15:

Step 1 Identify contract(s) with a customer: A contract is defined as an agreement between two or more parties that creates enforceable rights and obligations and sets out the criteria for every contract that must be met.

Step 2 Identify performance obligations in the contract: A performance obligation is a promise in a contract with a customer to transfer a good or service to the customer.

Step 3 Determine the transaction price: The transaction price is the amount of consideration to which the Group expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties.

Step 4 Allocate the transaction price to the performance obligations in the contract: For a contract that has more than one performance obligation, the Group allocates the transaction price to each performance obligation in an amount that depicts the amount of consideration to which the Group expects to be entitled in exchange for satisfying each performance obligation.

Step 5 Recognise revenue when (or as) the Group satisfies a performance obligation.

The Group satisfies a performance obligation and recognises revenue over time, if one of the following criteria is met:

- a) The Group's performance does not create an asset with an alternate use to the Group and the Group has an enforceable right to payment for performance completed to date.
- b) The Group's performance creates or enhances an asset that the customer controls as the asset is created or enhanced.
- c) The customer simultaneously receives and consumes the benefits provided by the Group's performance as the Group performs.

For performance obligations where one of the above conditions are not met, revenue is recognised at the point in time at which the performance obligation is satisfied.

Revenue is measured at the fair value of the consideration received or receivable, considering contractually defined terms of payment and excluding taxes and duty. The Group assesses its revenue arrangements against specific criteria to determine if it is acting as principal or agent.

Revenue is recognised to the extent it is probable that the economic benefits will flow to the Group and the revenue and costs, if applicable, can be measured reliably.

Notes to the consolidated financial statements (continued)

3 Material accounting policy information (continued)

(k) Revenue recognition (continued)

The Group recognises revenue from the sale of goods and services from the following:

- a) healthcare services to patients at its various clinics.
- b) laboratory services to patients for tests requested by patients or prescribed by doctors; and
- c) contracts with customers for the sale of pharmacy items including medicines and other consumables

Performance obligations relating to goods and services are satisfied at the point in time.

(ii) Rental income

The Group's policy for recognition of revenue from operating leases is described in note (l) below.

Policies applicable only to the period after 1 October 2025:

(iii) Fee income

The Group, through one of its consolidated subsidiaries, provides investment-related services in its Public Markets segment. Revenue from investment-related services is recognised in accordance with IFRS 15 when the services are provided to the customer.

Management fees are typically earned based on the net asset value of funds under management and are recognised over time as the services are rendered, as the customer simultaneously receives and consumes the benefits of the Group's services.

Performance fees, where applicable, are recognised only when it is highly probable that a significant reversal of revenue will not occur, generally when the performance criteria specified in the contract are met and the amount becomes contractually due.

Policies applicable throughout the year:

(iv) Dividend and interest income

Dividend income from investments is recognised when the shareholder's right to receive payment has been established (provided that it is probable that the economic benefits will flow to the Group and the amount of income can be measured reliably).

Interest income from a financial asset is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

(l) Leasing

The Group assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

(i) The Group as lessor

(Applicable only to the period before 1 October 2025) Leases in which the Group does not transfer substantially all the risks and rewards incidental to ownership of an asset are classified as operating leases. Rental income is recognised on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised on a straight-line basis over the lease term.

Notes to the consolidated financial statements (continued)

3 Material accounting policy information (continued)

(l) Leasing (continued)

Following the determination that the Group meets the definition of an investment entity in accordance with IFRS 10, the Group does not have any lease arrangements where it acts as a lessor that need to be recognised in accordance with applicable accounting standards.

(ii) The Group as lessee

The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

Right-of-use assets

The Group recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Unless the Group is reasonably certain to obtain ownership of the leased asset at the end of the lease term, the recognised right-of-use assets are depreciated on a straight-line basis over the shorter of its estimated useful life and the lease term. Right-of-use assets are subject to impairment.

Lease liabilities

At the commencement date of the lease, the Group recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for terminating a lease, if the lease term reflects the Group exercising the option to terminate. The variable lease payments that do not depend on an index or a rate are recognised as expense in the period on which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Group uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the in-substance fixed lease payments or a change in the assessment to purchase the underlying asset.

Short-term leases and leases of low-value assets

The Group applies the short-term lease recognition exemption to its short-term leases of property and equipment (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of office equipment that are considered of low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

(m) Employee benefits

The provision for employees' end of service benefit is calculated in accordance with the UAE Federal Labour Law and is recognised as an expense in the consolidated statement of profit and loss on an accrual basis.

Pension contribution for GCC nationals is recognised as an expense in the consolidated statement of profit and loss on an accrual basis.

Liabilities recognised in respect of other long-term employee benefits, included in trade and other liabilities, are measured at the present value of the estimated future cash outflows expected to be made by the Group in respect of services provided by employees up to the reporting date.

Notes to the consolidated financial statements (continued)

3 Material accounting policy information (continued)

(n) Borrowing costs

Borrowing costs directly attributable to the acquisition, construction, or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

(o) Government grants

The Group believes that, in most cases, when land is initially received through government grants, the probability that future economic benefits will flow to the Group is uncertain, since, until the Group has established plans to utilise the land, it is possible that such land may revert back to the government. In addition, in the absence of identified use of the land, the amount of future economic benefits cannot be determined with reasonable certainty. Accordingly, land so received is not initially recognised in the consolidated financial statements until certain events occur, which enable management to conclude that it becomes probable that future economic benefits will flow to the Group from its ownership of such land.

Land received as government grants that do not meet the criteria that future economic benefits will flow to the Group, are not recognised, but their existence is disclosed in the consolidated financial statements. The determination of whether future economic benefits will flow to the Group is made by management using guidelines approved by the Board of Directors; each such determination is also approved by the Board of Directors. Once the determination is made, land is recognised in the financial statements at nominal value.

At the point of such initial recognition, and subsequently, at each reporting date, an assessment is made by the Group as to the ultimate use of the land, and based on such assessment, the land is transferred to the relevant asset category (such as investment property, property, plant and equipment or inventory) depending on its intended use, and is thereafter accounted for using the accounting policy in place for that relevant asset category.

(p) Statutory reserve

In accordance with the Companies Law and the Company's Articles of Association, 10% of the profit after tax is transferred at the end of each financial year to a non-distributable statutory reserve. Such transfers are required to be made until the balance of the statutory reserve equals one half of the Company's paid up share capital.

(q) Treasury shares

Own equity instruments that are reacquired (treasury shares) are recognised at cost and deducted from equity. No gain or loss is recognised in profit or loss on the purchase, sale, issue or cancellation of the Group's own equity instruments.

(r) Taxes

Income tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. Current income tax relating to items recognised directly in equity is recognised in equity and not in the consolidated statement of comprehensive income. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Notes to the consolidated financial statements (continued)

3 Material accounting policy information (continued)

(r) Taxes (continued)

Deferred tax (continued)

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.
- In respect of taxable temporary differences associated with investments in subsidiaries, associates and interests in joint arrangements, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised, except:

- When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.
- In respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint arrangements, deferred tax assets are recognised only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

In assessing the recoverability of deferred tax assets, the Group relies on the same forecast assumptions used elsewhere in the consolidated financial statements and in other management reports, which, among other things, reflect the potential impact of climate-related development on the business, such as increased cost of production as a result of measures to reduce carbon emission.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss. Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Tax benefits acquired as part of a business combination, but not satisfying the criteria for separate recognition at that date, are recognised subsequently if new information about facts and circumstances change. The adjustment is either treated as a reduction in goodwill (as long as it does not exceed goodwill) if it was incurred during the measurement period or recognised in profit or loss.

The Group offsets deferred tax assets and deferred tax liabilities if and only if it has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities which intend either to settle current tax liabilities and assets on a net basis, or to realise the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

Notes to the consolidated financial statements (continued)

3 Material accounting policy information (continued)

(r) Taxes (continued)

Value added tax (VAT)

Expenses and assets are recognised net of the amount of VAT, except:

- When VAT incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case, VAT is recognised as part of the cost of acquisition of the asset or as part of the expense item, as applicable.
- When receivables and payables are stated with the amount of VAT included.

The net amount of VAT recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the consolidated statement of financial position.

(s) Voluntary change in the presentation of the consolidated statement profit or loss

The Group has adopted the voluntary change in the presentation of the consolidated statement of profit or loss as disclosed in note 33.

4 Critical accounting judgements and key sources of estimation uncertainty

The preparation of the consolidated financial statements in conformity with IFRS Accounting Standards requires management to make judgements, estimates or assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Revision to accounting estimates are recognised in the period in which the estimates are revised and in any future period affected.

(a) Key sources of estimation uncertainty

(i) Investment property valuation

The Group's investment properties are revalued at the end of the reporting period by management with reference to accredited independent appraisers having an appropriate recognised professional qualification and recent experience in the location and category of the property being valued. The fair values are based on market values, being the estimated consideration that would be exchanged at an arms' length transaction between knowledgeable market participants at measurement date.

In the absence of reliable estimates of current prices in an active market, the valuations are prepared by considering the aggregate of the estimated future cash flows expected to be received from the property considering income capitalization approach, comparable method and residual value method. During 2024, a fair value increase of AED 13,589 thousand was recognised. The fair valuation methodology of the investment properties are disclosed in note 9.

(ii) Fair valuation of investment in subsidiaries

The Group qualifies as an investment entity in accordance with IFRS 10 and, as a result, investments in subsidiaries are measured at fair value through profit or loss in accordance with IFRS 9.

The determination of fair value requires the use of judgement and estimates, particularly where valuations are derived from underlying investments that are not quoted in active markets. Fair value is determined in accordance with IFRS 13 and represents the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date.

Notes to the consolidated financial statements (continued)

4 Critical accounting judgements and key sources of estimation uncertainty (continued)

(a) Key sources of estimation uncertainty (continued)

(ii) Fair valuation of investment in subsidiaries (continued)

WPI Health LLC (WPI)

The fair value of WPI is based on an independent third-party valuation of its underlying investments. The determination of fair value involves significant judgement. These valuations involve the use of significant judgement and unobservable inputs. The valuations of the underlying investments are in accordance with the Net Asset Value method using a "Sum of the Parts" approach. The determination requires significant estimates and judgments with respect to selection of comparable companies, application of Enterprise Value to Revenue and/or EBITDA multiples, assessment of net debt, and allocation of administrative expenses to underlying investments.

Waha Land (WL)

The fair value of WL is measured at fair value through profit or loss in accordance with IFRS 9. Fair value is determined based on independent valuations of the underlying assets. The determination of fair value involves significant judgement, including assumptions about market rents, yields, discount rates, and development potential. The valuations of the underlying investments are in accordance with methodologies accepted by the Royal Institution of Chartered Surveyors (RICS). The determination requires significant estimates and judgments with respect to projected rental income, comparable sales prices of land and serviced land, construction and professional costs, financing costs, and adjustments applied in aggregating the net asset values of the underlying properties to determine the fair value of WL.

Waha Holding RSC Ltd (RSC) and other SPVs (together referred as 'Other Subsidiaries')

The fair value of Other Subsidiaries is measured at fair value through profit or loss in accordance with IFRS 9. Fair value is determined based on the net asset value (NAV) of the underlying unquoted funds in which RSC holds investments. The determination of fair value involves significant judgement, including assumptions about the performance of the underlying funds, market conditions, and liquidity of the investments. The valuations of the underlying investments are based on NAV statements provided by the respective fund managers and prepared in accordance with the fund's own valuation policies. The determination of such statements requires significant estimates and judgments with respect to the recognition of underlying assets and liabilities, valuation of equity and debt instruments within the funds, and the aggregation of these values to determine Other Subsidiaries' fair value.

(iii) Impairment of goodwill

Goodwill arising from the acquisition of the Healthcare subsidiaries was tested for impairment during the year. The critical estimates involved are disclosed in note 10.

(iv) Fair value of financial instruments

The Group has financial assets and liabilities that are measured at fair value for financial reporting purposes. In estimating the fair value of an asset or a liability, the Group uses market-observable data to the extent it is available. Information about the valuation techniques and inputs used in determining the fair value of various financial assets and liabilities are disclosed in note 32.

Notes to the consolidated financial statements (continued)

4 Critical accounting judgements and key sources of estimation uncertainty (continued)

(b) Critical accounting judgements

(i) Assessment as an investment entity

The Board of Directors has applied significant judgement in concluding that the Company has met the definition of an investment entity, as its strategic objective is to invest in portfolio of investments and to provide investment management services to investors for the purpose of generating returns in the form of investment income and capital appreciation.

5 Investment in subsidiaries measured at FVTPL

The Group has deconsolidated certain subsidiaries following its change in status to an investment entity under IFRS 10. The Group has remeasured the subsidiaries at fair value as at the date of change and recognised the resulting gain or loss in the statement of profit or loss. The gain or loss represents the difference between the carrying amount of the subsidiaries at the date of change and their fair value.

This change in accounting treatment is applied prospectively from the date the Group became an investment entity.

As at the date of the deconsolidation, the carrying amounts of the assets and liabilities of the subsidiaries were as follows:

	30 September 2025 AED '000
Assets	
Financial investments	10,475,876
Trade and other receivables	1,706,206
Cash and cash equivalents	733,692
Other assets	619,411
Liabilities	
Borrowings	(3,705,508)
Trade and other liabilities	(346,084)
Other liabilities	(377,151)
Non-controlling interests	(4,653,747)
Net carrying value of the subsidiaries	4,452,695

The Group has recognised a gain on deconsolidation of, calculated as:

	1 October 2025 AED '000
Fair value of the subsidiaries	4,720,931
Net carrying value	(4,452,695)
Derecognition of reserves	(8,882)
Gain on deconsolidation	259,354

The gain on deconsolidation is recognised in the statement of profit or loss under gain on the deconsolidation of subsidiaries, due to change in status to investment entity.

Movement in investments in subsidiaries designated at FVTPL

	2025 AED '000	2024 AED '000
At 1 October 2025	4,720,931	-
Additions during the year	75,856	-
Redemption during the year	(2,949)	-
Loss on change in fair value	(33,688)	-
At 31 December 2025	4,760,150	-

Notes to the consolidated financial statements (continued)

5 Investment in subsidiaries measured at FVTPL (continued)

	2025 AED '000	2024 AED '000
Al Waha Land LLC	448,050	-
WPI Health Investment LLC	122,232	-
Waha Holding RSC Ltd ²	4,080,707	-
Waha Energy Limited	101,792	-
Waha VAS Limited (Reclassified from note 12) ¹	7,369	-
Total	4,760,150	-

¹Up to 30 September 2025, the Group recognised its investment in Optasia as an associate, held through Waha VAS Limited, and accounted for it using the equity method as part of the consolidation of Optasia. On the date of change in status as an investment entity, gain arising from this investment was recognised as part of gain on deconsolidation of the subsidiary that held the associate.

Following the change in classification, the Group presents its investment in Waha VAS Limited, together with Waha VAS Limited's interest in Optasia as an investment in subsidiary measured at fair value through profit or loss. During the period, the Group recorded dividend income from Waha VAS Limited and Waha Energy Limited following a disposal of significant interests in Optasia and NESR Corp.

²Holds investments primarily in units of funds investing in public markets and in unquoted private funds.

6 Composition of the Group

The summarised financial information for the subsidiaries where the Group has material non-controlling interests are only presented for 2024. These subsidiaries are now recognised as investment in subsidiaries measured at FVTPL and disclosed in Note 5.

6.1 a Waha Investment Management Company SPC

Summarised financial information in respect of Waha Investment Management Company SPC is set out below and this represents amounts before intragroup eliminations.

Statement of financial position	2024 AED '000
Total assets	11,991,752
Total liabilities	(4,304,641)
Non-controlling interests ¹	(4,306,516)
Equity attributable to the equity holders of the parent	3,380,595

¹ Movement in non-controlling interests includes: a) net investment into Waha MENA Equity Fund SP of AED 162,711 thousand; b) net investments in Waha Emerging Markets Credit Fund SP of AED 899,354 thousand; and c) investment of AED 33,102 thousand into Waha Islamic Income Fund SP.

Movement in equity attributable to the equity holders of the parent includes a) redemption of AED 116,593 thousand from Waha MENA Equity Fund SP and the Group's ownership decreased from 51.2% to 47.3%; b) net redemption of AED 55,170 thousand from Waha Emerging Markets Credit Fund SP and the Group's ownership decreased from 54.7% to 40.1%.

7 Operating segments

Private Investments

The Private Investments segment holds all of the Group's proprietary investments in diversified industries including financial services, infrastructure, oil and gas, fintech and healthcare.

Waha Land

Waha Land segment represents the Group's interest in industrial real estate.

Public Markets

The Public Markets segment represents a platform to provide investors access to opportunities in equities and other asset management services.

Corporate

The corporate segment comprises the Group's activities, which are not allocated to reportable segments.

Information related to the operating segments is presented below as at, and for the year ended, 31 December. The information below includes the results from the operating activities of the consolidated subsidiaries until 30 September 2025. From 1 October 2025 onwards, it includes only investment-related income, comprising income from investments held at fair value and investment management fee income.

Other comprehensive income	10,419	-	-	-	10,419

Segment income reported above represents income generated from external customers. There was no inter-segment income during the year (2024: AED nil). All revenues are generated from sales of goods and services within the UAE. Included in revenue from sales of goods and services are revenues of approximately AED16,284 thousand (2024: AED 19,797 thousand) which arose from the Group's largest customer. One customer (2024: Two customer) contributed 10% or more to the Group's revenue for 2025.

During the year, the Group recognised an impairment loss of AED 8,246 thousand (2024: nil) on investments in equity accounted investees, and a fair value gain of AED 12,508 thousand (2024: AED 13,589 thousand) on investment properties in the Waha Land segment.

The accounting policies of the operating segments are the same as the Group's accounting policies described in note 3. Segment profit represents the profit earned by each segment without allocation of central administration cost amounting to AED 119,252 thousand (2024: AED 73,622 thousand). This is the measure reported to the chief operating decision maker for the purposes of resource allocation and assessment of segment performance.

Derecognition due to deconsolidation of subsidiaries resulting from change in status to an investment entity	(447,600)	-
At 31 December	-	434,200

Investment properties comprise of land and buildings that are constructed for commercial and industrial use.

Investment properties are categorised into level 3 of the fair value hierarchy based on the inputs to the valuation technique accepted by the Royal Institute of Chartered Surveyors and consistent with IFRS Accounting Standards requirements. The valuation, as of 31 December 2024 was performed by management with reference to an accredited independent appraiser having an appropriate recognised professional qualification and recent experience in the location and category of the property being valued. In estimating the fair value, the current use of the property was deemed to be its highest and best use. Valuation methodologies considered include:

- The Income Capitalization Approach, where income receivable under comparable leases, existing lease agreements and projected future rental streams are capitalized at appropriate rates to reflect the investment market conditions at the valuation date.
- The Comparable method, which identify identical or similar assets (properties) that have been sold, analysing the sales prices achieved and the relevant market data and establishing value by comparison with those properties that have been sold
- The Residual Value Method, which requires the use of estimates such as sale price, construction costs, professional fees, financing cost and targeted internal rate of return. These estimates are based on local market conditions existing at the end of the reporting period.

The Income Capitalisation Approach was used to derive the fair value of buildings where the discount rate used ranged from 10% – 12%. The Comparable method and Residual Value Method were used to derive the fair value of land plots where the sales price ranged from AED 34 to AED 36 per sq. ft.

Based on the revaluation, a fair value increase of AED 12,508 thousand (31 December 2024: 13,589 thousand) was recognised.

The Group has been classified as an investment entity in accordance with IFRS 10, and the existing operating subsidiaries are now measured at fair value through profit or loss. Therefore, the investment properties relating to the previously consolidated subsidiaries are considered disposed of as at 1 October 2025.

At 31 December 2024	36,507	-	570	363	37,440

Goodwill acquired through business combinations with indefinite useful lives is allocated to the Healthcare cash-generating units within the Private Investment operating segment. The recoverable amounts of these cash-generating units were determined using "fair value less cost to sale" approach. For this purpose, the fair value is based on market approach and key inputs in the valuation methodology are EBITDA/revenue and their market driven multiples. EBITDA/revenue cash flows projection is based on the most recent financial information and enterprise value is determined after taking account of cash outflows. Management believes that any reasonably possible change in the key assumptions on which recoverable amount is based, would not cause the aggregate carrying amount to exceed the recoverable amounts of the cash generating units and hence the goodwill is not impaired.

The Group has been classified as an investment entity in accordance with IFRS 10, and the existing operating subsidiaries are now measured at fair value through profit or loss. Therefore, the goodwill and certain intangible assets relating to the previously consolidated subsidiaries are considered disposed of as at 1 October 2025.

11 Loan investments

	2025 AED '000	2024 AED '000
Loan investments - <i>amortised cost</i>	59,840	52,699

During 2022, the Group provided an interest-bearing loan amounting to AED 36,044 thousand at a PIK interest rate of 13% per annum compounded quarterly. The loan is repayable in five years. As of 31 December 2025, the Group has outstanding loan of AED 59,840 thousand (2024: AED 52,699 thousand) inclusive of capitalized interest of AED 23,187 thousand (2024: AED 16,200 thousand) under the PIK arrangement. Loan can be extended by the borrower for one year. The Group believes that ECL provision would not be material to the consolidated financial statements. The loan is secured by the guarantee provided by the parent of the Borrower.

12 Investments in associates and joint ventures

The Group has remeasured the associates and joint ventures at fair value as at the date of change and recognised the resulting gain or loss in the statement of profit or loss. The gain or loss represents the difference between the carrying amount of the associates and joint ventures at the date of change and their fair value.

This change in accounting treatment is applied prospectively from the date the Group became an investment entity.

As at the date of the change in status, the carrying amounts of the investments in associates and joint ventures were as follows:

	30 September 2025 AED '000
Net carrying value of the associates and joint ventures	82,066

Investment in associates and joint ventures

	2025 AED '000	2024** AED '000
Associates	-	78,840
Joint ventures	-	16,406
	-	95,246

**2024 numbers represent investments in associates and joint ventures accounted for using the equity method.

Notes to the consolidated financial statements (continued)

12 Investments in associates and joint ventures (continued)

12.1 Associates

Details of the Group's material associate at the end of the reporting period are as follows:

Associate	Principal activity	Country of incorporation	Group's shareholding	
			2025	2024
Channel VAS Investments Limited	Fintech	UAE	-	10.48%

The summarised financial information for the material associates is presented only for 2024.

The Group considers this investment as an associate due its rights to representation of the group on the board of investee company.

Up to 30 September 2025, the Group recognised its investment in Channel VAS Investments Limited as an associate, held through Waha VAS Limited, and accounted for it using the equity method as part of the consolidation of Waha VAS Limited.

Following the change in classification as an investment entity, the Group presents its interest in Waha VAS Limited, together with Waha VAS Limited's interest in Channel VAS Investments Limited as an investment in subsidiary measured at fair value through profit or loss as provided in Note 5.

During the fourth quarter of 2025, Waha VAS Limited disposed 98.5% of its investment in Optasia, resulting in a material reduction in its ownership interest.

Subsequent to the disposal, the Group received a dividend of AED 419,275 thousand (note 22) from Waha VAS Limited. The dividend was funded from distributable profits of Waha VAS Limited, including proceeds generated from the disposal of its investment in Optasia.

As Waha VAS Limited is measured at fair value through profit or loss following the Group's transition to an investment entity, the effects of the disposal of Optasia are reflected through changes in the fair value of Waha VAS Limited. The dividend received is recognised as dividend income in profit or loss in accordance with IFRS 9.

The movement of investment in associates is presented below:

	2025 AED '000	2024 AED '000
As at 1 January	78,840	78,957

Expected credit losses recognised during the year	656	583
Other adjustments	-	(13,163)
Derecognition due to deconsolidation of subsidiaries resulting from change in status to an investment entity	(4,891)	-
Balance at the end of the year	-	4,235

Movement in allowance for expected credit losses on other receivables:

	2025 AED '000	2024 AED '000
Balance at the beginning of the year	534	5,243
Write-off	(400)	(4,709)
Derecognition due to deconsolidation of subsidiaries resulting from change in status to an investment entity	(134)	-
Balance at the end of the year	-	534

Notes to the consolidated financial statements (continued)

14 Trade and other receivables (continued)

In determining the recoverability of a trade receivable, the Group considers any change in the credit quality of the trade receivable from the date credit was initially granted up to the end of the reporting period.

Deposits under lien represent cash collateral for letters of guarantee issued by commercial banks in favour of the Central Bank of the UAE on behalf of the Group. The interest rate on deposits under lien is 0.55% (2024: 0.55%) per annum. All deposits under lien are placed with UAE banks.

15 Cash and bank balances

	2025 AED '000	2024 AED '000
Deposits held with banks	334,986	97,007
Cash at banks	121,180	804,381
Cash in hand	5	60
	456,171	901,448
Less: Allowance for expected credit losses	-	(55)
Cash and cash equivalents	456,171	901,393

The interest rate on short term deposits ranged between 3.53% - 4.56% (2024: 4.15% - 5.57%) per annum. All short-term deposits are placed with UAE banks.

16 Share capital and dividend

	2025 AED '000	2024 AED '000
Authorised and fully paid up capital:		
1,883,513,614 shares (2024: 1,883,513,614 shares) of AED 1 each	1,883,514	1,883,514

On 17 March 2025, the Company held its Annual General Meeting ("AGM") which, among other things, approved a cash dividend of AED 188,351 thousand representing 10 fils per share (26 March 2024: approved a cash dividend of AED 188,351 thousand representing 10 fils per share).

On 13 March 2023, the Company's Board of Directors resolved to cancel 61,001,073 shares held by the Company (which included the shares still held by the Company as a result of the buyback program), after necessary regulatory approvals.

At the 2024 AGM and in order to finalise the cancellation of these shares, shareholders approved the amendment of the articles of association of the Company to reflect the new share capital.

As of 31 December 2025, the Company holds 8,427,859 own shares at AED 18,524 thousand (31 December 2024: 20,284,202 shares at AED 39,759 thousand).

On 8 December 2025, the Company held a General Assembly meeting where the Company's Board of Directors approved the implementation of a share buy-back programme for up to 10% of the outstanding shares of the Company. The Abu Dhabi Securities Exchange approved the programme on 22 December 2025.

A cash dividend of 10 fils per share is proposed for 2025 by the Board of Directors of the Company subject to the approval of the shareholders in the forthcoming Annual General Meeting.

The basic and diluted earnings per share for the year ended 31 December 2025 and 2024 has been calculated using the weighted average number of shares outstanding during the year after considering the effect of treasury shares.

	2025	2024
Profit for the year attributable to equity holders of the parent (AED '000)	1,012,487	381,277
Weighted average number of ordinary shares for the purposes of basic and diluted earnings per share	1,868,258,657	1,852,571,847
Basic and diluted earnings per share attributable to the equity holders of the parent (AED)	0.542	0.206

Notes to the consolidated financial statements (continued)

17 Borrowings

	31 December 2025 AED '000				31 December 2024 AED '000					
	Effective Interest Rate	< 1 year	1 – 3 years	> 3 years	Total	Effective Interest Rate	< 1 year	1 – 3 years	> 3 years	Total
Secured term loans ¹	SOFR+2% p.a.	543,027	-	-	543,027	SOFR+2% p.a. and 3m EIBOR +2.5% p.a.	1,178,202	67,726	50,795	1,296,723
Borrowings through repurchase agreements ²		-	-	-	-	0.0% to +5.25% p.a.	4,076,540	-	-	4,076,540
		543,027	-	-	543,027		5,254,742	67,726	50,795	5,373,263

¹ On 9 August 2024, the Group replaced its existing AED 1,839 million (\$500 million) secured revolving loan facility with a new 3-year AED 1,471 million (\$400 million) secured revolving loan facility. The new facility is initially secured by a pledge over the Group's shareholding in Waha Land LLC. As at 31 December 2025, a net amount of AED 603,192 thousand was repaid (2024: AED 147,120 thousand).

During 2016, the Group secured AED 426 million in a Murabaha-Ijara based financing for further development of its light industrial real estate project. During 2018, it was amended to reduce the facility from AED 426 million to AED 378 million and further to AED 170 million in 2025, following the disposal of the assets held for sale (note 27). The facility is secured by mortgages over certain plots of land, negative pledge over Stage 2b and assignment of certain rental income.

² Repurchase liabilities represent the Group's borrowings against its investment in listed fixed income securities under repurchase contracts.

The investments pledged to lenders as security against various facilities are certain investments (refer to note 13).

The Group has deconsolidated borrowings through repurchase agreements and certain secured term loans in 2025 following its change in status to an investment entity under IFRS 10.

Notes to the consolidated financial statements (continued)

17 Borrowings (continued)

Reconciliation of borrowings movement to cash flows arising from financing activities is as follows:

	2025 AED '000	2024 AED '000
At 1 January	5,373,263	5,955,844
Loans drawn down	110,340	1,174,619
Loans repaid for financial assets at FVTPL	(515,166)	(414,630)
Loan arrangement costs, net of amortisation	2,266	(6,013)
Loans repaid	(722,168)	(1,336,557)
Derecognition due to deconsolidation of subsidiaries resulting from change in status to an investment entity	(3,705,508)	-
	543,027	5,373,263

18 Financial liabilities

	2025 AED '000	2024 AED '000
Financial liabilities at FVTPL		
Derivative liabilities ¹	82	229,698
	82	229,698

¹The Group entered into interest rate swap (IRS) to partially hedge its interest rate risk in relation to its floating rate borrowings to manage interest rate risk of the newly secured revolving loan facility during the year. Under IRS contract, the Group agrees to exchange the difference between fixed and floating rate interest amounts calculated on agreed notional principal amounts. Such contract enables the Group to mitigate the risk of changing interest rates and the cash flow exposures on the issued variable rate borrowing held.

Maturity profiles of derivative liabilities are as follows:

	2025 Notional AED '000	2025 Fair value AED '000	2024 Notional AED '000	2024 Fair value AED '000
Due within 1 year	-	-	385,730	31,368
Due between 1 to 3 years	551,700	82	-	-
More than 3 years	-	-	978,873	198,330
	551,700	82	1,364,603	229,698

19 Trade and other liabilities

	2025 AED '000	2024 AED '000
Trade payables	3,734	21,369
Interest accrued on borrowings	-	256
Dividends payable	15,744	15,744
Long term employee incentive plans accrual (note 31)	85,264	74,674
End of service benefit provision	16,914	23,416
Other payables and accruals	96,828	172,141
	218,484	307,600

Trade and other liabilities are stated at amortised cost. The average credit period for the trade payables is 60 days. The Group has financial risk management policies in place to ensure that all the payables are paid within the agreed credit period. The contractual maturities for trade payables are within one year.

Notes to the consolidated financial statements (continued)

20 Leases

The Group as lessee

The Group has entered into operating lease arrangements for office and medical facility space.

The movement in the Group's right-of-use assets and lease liabilities during the year is as follows:

	Right-of-use assets AED '000	Lease liabilities AED '000
As at 1 January 2024	23,431	21,420
Reassessment	(624)	(928)
New leases	32,452	32,452
Depreciation expense	(12,516)	-
Interest expense	-	1,881
Payments	-	(13,740)
As at 31 December 2024	42,743	41,085
Reassessment	(831)	(1,397)
New leases	35,674	35,674
Depreciation expense	(12,821)	-
Interest expense	-	3,438
Payments	-	(9,255)
Derecognition due to deconsolidation of subsidiaries resulting from change in status to an investment entity	(33,943)	(35,350)
As at 31 December 2025	30,822	34,195

The following are the amounts recognised in profit or loss:

	2025 AED '000	2024 AED '000
Depreciation expense of right-of-use assets	12,821	12,516
Interest expense on lease liabilities	3,438	1,881
Expense relating to short-term leases	1,148	201
Total amount recognised in profit or loss	17,407	14,598

The Group as lessor

The rental income earned by the Group are recognised up to 30 September 2025. From 1 October 2025, the Group adopted investment entity status, and the subsidiaries are no longer consolidated.

For 2024, operating leases relate to the investment properties owned by the Group with lease payments between 1 to 15 years.

The non-cancellable operating lease receivables are set out below:

	2024 AED '000
Within one year	63,830
Between 2 and 5 years	115,747
More than 5 years	28,657
	208,234

Notes to the consolidated financial statements (continued)

21 Revenue from sale of goods and services

	2025 AED '000	2024 AED '000
Revenue from sale of goods and services	129,827	150,111

Revenue from sale of goods and services are mainly attributable to the healthcare operations. Performance obligations relating to goods and services are satisfied at the point in time.

All revenues are generated within UAE.

The Group has been classified as an investment entity effective 1 October 2025. Consequently, information including revenue from sale of goods and services is presented on a consolidated basis only up to 30 September 2025. From that date onwards, the subsidiaries are measured at fair value through profit or loss and are no longer consolidated.

22 Income from financial investments

	2025 AED '000	2024 AED '000
Financial assets at fair value through profit or loss		
Fair value loss from investments in subsidiaries held at fair value	(33,688)	-
Dividend income from investments in subsidiaries held at fair value	472,151	-
Net gain / (loss) from investment in unquoted funds and private equities	34,137	(91,362)
Net (loss) / gain from derivatives	(57,014)	72,228
Net gain from listed fixed income securities	256,947	332,031
Net gain from listed equity securities	68,404	99,310
Net gain from convertible preference shares	-	21,069
Dividend income from listed equity securities	98,119	95,082
Interest income from listed fixed income securities	317,066	354,512
Profit income from sukuk	8,824	10,281
Others	-	47,809
	1,164,946	940,960

The Group has been classified as an investment entity effective 1 October 2025. Consequently, income from financial assets at fair value through profit or loss is presented on a consolidated basis only up to 30 September 2025. From that date onwards, the subsidiaries are measured at fair value through profit or loss, with any fair value gains or losses recognised in profit or loss and are no longer consolidated.

Notes to the consolidated financial statements (continued)
23 Fee income

	2025 AED '000	2024 AED '000
Management fees (i)	42,912	-
Performance fees (ii)	71,619	-
	114,531	-

(i) Management fees accrue at 1.0% - 2.0% p.a. of fee-paying Share Classes, based on net assets under management. At the reporting date, the Company recognised the below management fees:

	2025 AED '000	2024 AED '000
Waha Emerging Markets Credit Fund SP	18,339	-
Waha MENA Equity Fund SP	12,798	-
Waha Islamic Income Fund SP	610	-
	31,747	-
Other sub-advisory agreements	11,165	-
Total management fees	42,912	-

The Group managed total assets under management of AED 10.8 billion (31 December 2024: AED 10.3 billion), including third party assets of AED 7.1 billion (31 December 2024: AED 6.9 billion) as at 31 December 2025 (31 December 2024: AED 10.3 billion).

(ii) Performance fees accrue at 10% – 15% of fee-paying Share Classes, based on the increase in the NAV per share of the relevant fee paying Share Class or Series over the prior high watermark. At the reporting date, the Company recognised the below performance fees:

	2025 AED '000	2024 AED '000
Waha Emerging Markets Credit Fund SP	26,960	-
Waha MENA Equity Fund SP	26,137	-
Waha Islamic Income Fund SP	773	-
	53,870	-
Other sub-advisory agreements	17,749	-
Total performance fees	71,619	-

Following the Group's classification as an investment entity effective 1 October 2025, fee income has been recognised and presented separately for the period from 1 October 2025 to 31 December 2025.

Notes to the consolidated financial statements (continued)

24 Expenditures

	2025 AED '000			2024 AED '000		
	Company	Subsidiaries	Total	Company	Subsidiaries	Total
Staff costs	103,682	199,946	303,628	57,438	200,567	258,005

	83,421	76,611

The Group has been classified as an investment entity effective 1 October 2025. Consequently, finance income is presented on a consolidated basis only up to 30 September 2025. From that date onwards, the subsidiaries are measured at fair value through profit or loss and are no longer consolidated.

Notes to the consolidated financial statements (continued)

27 Non-current asset held for sale

On 30 June 2025, the Group, through its subsidiary Waha Land LLC, entered into a share purchase agreement with a third party under which it sold its entire equity stake in Industrial Properties Limited for a total consideration of AED 527.8 million. As a result of the sale, the Group realised a gain of AED 61.4 million which was recorded under "income from investment properties" in the condensed consolidated interim statement of profit or loss (note 9).

28 Taxes

UAE Corporate Tax Law

On 9 December 2022, the UAE Ministry of Finance released Federal Decree-Law No. 47 of 2022 on the Taxation of Corporations and Businesses (Corporate Tax Law or the Law) to enact a Federal corporate tax (CT) regime in the UAE. The CT regime has become effective for accounting periods beginning on or after 1 June 2023.

Since the Group is expected to pay tax in accordance with the provision of the UAE CT Law on its operational results with effect from 1 January 2024, current taxes have been accounted for in the consolidated financial statements for the period beginning from 1 January 2024.

Deferred taxes should be measured by reference to the tax rates and laws, as enacted, or substantively enacted, by the end of the reporting period, that are expected to apply in the periods in which the assets and liabilities to which the deferred tax relates are realized or settled.

Amount recognised in the consolidated statement of comprehensive income:

The major components of income tax expense for the year ended 31 December:

	2025 AED '000	2024 AED '000
Current income tax expense	5,197	313
Deferred income tax credit relating to origination and reversal of temporary differences	-	-
Income tax expense recognized in consolidated statement of profit or loss	5,197	313

Reconciliation of accounting income (for UAE entities only)

	2025 AED '000	2024 AED '000
Accounting profit before tax	1,282,499	679,750
Profit attributable to NCI	(264,815)	(298,160)
	1,017,684	381,590
<i>At United Arab Emirates' statutory income tax rate of 9%</i>	91,592	34,343
Adjustments in respect of current income tax of previous year	111	-
Tax effect of permanent adjustments	(90,402)	(34,030)
Unrecognized DTA	3,896	-
Income tax expense reported in the consolidated income statement	5,197	313
Effective tax rate	0.51%	0.08%

As at 31 December 2025, there were no amounts recognised directly to equity or in other comprehensive income.

Notes to the consolidated financial statements (continued)

29 Related parties

For the Group, related parties include major shareholders of the Company, directors or officers of the Group, enterprises that are in a position to exercise significant influence over the Group or those enterprises over which the Group can exercise significant influence or has joint control.

The Group's transactions with related parties are required to be conducted in compliance with all relevant laws and regulations. Where a Board member has an actual or perceived conflict of interest over an issue to be considered by the Board, the interested member may not vote on any relevant resolutions and can also be asked by the Chairman not to participate in the relevant Board discussions. The Company has a conflict-of-interest policy for Board members and, for senior management, a code of conduct. The Company takes reasonable steps to maintain an awareness of the other relevant commitments of its directors and senior management and thus is able to monitor compliance with this policy and code.

Balances with related parties at the end of the reporting period comprise:

<i>Amounts due from related parties</i>	2025 AED '000	2024 AED '000
Waha Emerging Markets Credit Fund SP	100,553	-
Waha MENA Equity Fund SP	41,453	-
Waha Islamic Income Fund SP	2,249	-
Al Waha Land LLC	1,860	-
	146,115	-

<i>Loan to a related party</i>	2025 AED '000	2024 AED '000

	15,528	10,921

The significant transactions with related parties that the Group entered into during the period are as follows:

	2025 AED '000	2024 AED '000
Management fees (note 23)	31,747	-
Performance fees (note 23)	53,870	-
Dividend income from investments in subsidiaries (note 22)	472,151	-
Additions to Investment in subsidiaries, net of redemptions (note 5)	72,906	-
Expense recharges, net	1,860	-
Interest income from loan to a related party	167	-

Notes to the consolidated financial statements (continued)

30 Commitments

Capital commitments

As at 31 December 2025, the Group has outstanding capital calls of nil (2024: AED 31,112 thousand) pertaining to its investment in unquoted fund and private equities.

31 Employee compensation

In designing its employee compensation plans, the Group's primary objective is to provide employees with a robust compensation platform upon which they are encouraged to pursue outstanding returns and to reward them based on their results in line with the interests of the Group. This is achieved through a combination of cash salaries, variable bonuses dependent upon Group and individual's performance, and participation in various long term employee incentive and co-investment programs described below.

Investment profit participation plans

The Group's Board of Directors has approved the following cash settled long term incentive plan for certain employees linked to investment profit participation:

- A trading plan, whereby the employees are granted points linked to the fund's performance which vests annually. An amount representing the value of vested points derived from the fund's net asset value is divided into a cash payment and cash deferral. The amount of the cash deferral is index-linked to the relative fund performance for a period of three years. The reinvested amount vests over the three-year period and after completing the service condition a cash payment is made.

32 Financial instruments

Overview

The Group has exposure to the following risks from its use of financial instruments:

- credit risk
- liquidity risk
- market risk
- operational risk

This note presents information about the Group's exposure to each of the above risks, the Group's objectives, policies and processes for measuring and managing risk, and the Group's management of capital.

Risk management framework

The Board of Directors has overall responsibility for the establishment and oversight of the Group's risk management framework. The Board of Directors has established a permanent Risk and Compliance Committee, comprising of three members of the Board of Directors. In addition, Management has established a committee comprising of senior management. These committees are responsible for overseeing the Group's risk management and compliance activities (including the implementation and effectiveness of the Group's risk management framework). The Group's risk management framework is established to identify and analyse the risks faced by the Group, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management framework is reviewed regularly to reflect changes in market conditions and the Group's activities. The Group, through its training and management standards and procedures, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations.

The Group Audit Committee oversees how management monitors compliance with the Group's risk management policies and procedures and reviews the adequacy of the risk management framework in relation to the risks faced by the Group. The Group Audit Committee is assisted in its oversight role by an internal audit team. The Internal audit team undertakes regular reviews of risk management controls and procedures, the results of which are reported to the Audit Committee.

Notes to the consolidated financial statements (continued)

32 Financial instruments (continued)

In respect of public market transactions, the Group has implemented risk management policies and guidelines, as set out in the Private Placement Memorandums of Waha MENA Equity Fund SP, Waha Emerging Markets Credit Fund SP, Waha EM Equity Fund SP and Waha Islamic Income Fund SP (all together the "Funds"), which set out the procedures to be performed prior to making investment decisions, including employing qualitative analyses, quantitative techniques, due diligence and management meetings as well as fundamental research on evaluation of the issuer based on its financial statements and operations. In addition to analysing financial instruments, the Group determines the relative attractiveness of investing in different markets in order to determine the country weighting in each area. In assessing the investment potential in each area, the Group considers economic growth prospects, monetary decisions, political risks, currency risks, capital flow risks, and other factors.

a) Credit risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Group's receivables from customers, derivative assets, cash and cash balances and loan investments. As at the end of the reporting date, the Group's financial assets exposed to credit risk amounted to:

	2025 AED '000	2024 AED '000
Financial assets at amortised cost		
Cash and bank balances ¹ (note 15)	456,166	901,333
Trade and other receivables ² (note 14)	74,549	1,891,184
Loan investment	59,840	52,699
Reverse repurchase contracts, net	-	204,256
	590,555	3,049,472

¹ Cash and bank balances exclude cash in hand.

² Trade and other receivables exclude prepayments and advances.

(i) Bank balances

Substantially all of the bank balances are held with reputed financial institutions with S&P credit ratings ranging between A and BBB+, therefore, there are no significant credit risks as at reporting date.

(ii) Trade and other receivables

The Group's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The characteristics of the Group's customer base including default risk of the industry and country in which the Group's customers operate are some of the factors which influence credit risk.

The Group has established various policies and procedures to manage credit exposure, including initial financial assessment and appraisal, collateral and guarantee requirements and continual credit monitoring. The expected credit losses on trade and other receivables are estimated based on the Group's historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions, and an assessment of both the current as well as the forecast direction of conditions at the reporting date, including time value of money where appropriate.

Credit risk arising on transactions with brokers relates to transactions awaiting settlement. Risk related to unsettled transactions is considered small due to the short settlement period involved and high credit quality of the brokers used.

(iii) Lending

The Group limits its exposure to credit risk by investing in securities which are fully collateralised or guaranteed and with credit ratings which are within the limits prescribed by the Group's financial risk management guidelines.

(iv) Derivative assets

The Group limits its exposure to credit risk on derivative assets by dealing with financial institutions and commercial banks that have S&P credit ratings ranging between A and BBB+ as at the reporting date.

Notes to the consolidated financial statements (continued)

32 Financial instruments (continued)

b) Liquidity risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting its obligations associated with its financial liabilities that are settled by delivering cash or another asset. Ultimate responsibility for liquidity risk management rests with the Board of Directors, which provides appropriate liquidity risk management guidance to the management of the Group's short, medium and long-term funding and liquidity management requirements. The Group manages liquidity risk by maintaining adequate reserves, banking arrangements and facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

The table below analyses the Group's financial liabilities, based on contractual undiscounted payments, into relevant maturity groupings based on the remaining period at the statement of financial position to the contractual maturity date.

AED '000	31 December 2025				31 December 2024			
	< 1 year	1 – 3 years	> 3 years	Total	< 1 year	1 – 3 years	> 3 years	Total
Liabilities								
Borrowings	543,027	-	-	543,027	5,369,632	77,133	59,614	5,506,379
Trade and other liabilities	104,742	-	-	104,742	111,821	-	-	111,821
Lease liabilities	10,345	7,828	26,462	44,635	14,645	21,815	10,219	46,679
Total liabilities	658,114	7,828	26,462	692,404	5,496,098	98,948	69,833	5,664,879

b) Market risks

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect the Group's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the returns.

Notes to the consolidated financial statements (continued)

c) Market risks (continued)

i) Currency risk

The Group may be exposed to currency risk on financial investments, trade receivables and trade payables that are denominated in a currency other than the respective functional currencies of Group entities. In respect of the Group's transactions and balances denominated in US\$, Qatari Riyal (QAR), Saudi Riyal (SAR), the Group is not exposed to the currency risk as the UAE Dirham (AED) and Saudi Riyal (SAR) are currently pegged to the US\$. The table below summarizes the sensitivity of the Group's monetary and non-monetary assets and liabilities to changes in foreign exchange movements at year end. The analysis is based on the assumptions that the relevant foreign exchange rate increased/decreased by 0.5% with all other variables held constant:

As a consequence of the changes in business model to investment entity, the Group does not have any direct foreign currency exposure as at 31 December 2025.

2024 AED'000	Assets	Liabilities	Net Exposure	Hedged	Effect on net equity for +/- 0.5% sensitivity
Euro	807,802	(687,344)	120,458	(130,901)	+/- (52)
Kuwaiti Dinar	174,923	-	174,923	-	+/- 875
Bahraini Dinar	1	-	1	-	-
Egyptian Pound	424,829	-	424,829	-	+/- 2,124
Omani Riyal	19,704	-	19,704	-	+/- 99
Others	1,074	-	1,074	-	+/- 5
	<u>1,428,333</u>	<u>(687,344)</u>	<u>740,989</u>	<u>(130,901)</u>	<u>+/-3,051</u>

(ii) Interest rate risk

The Group is exposed to fair value interest rate risk on its investment in listed fixed income securities carried at fair value through profit or loss, and cash flow interest rate risk on its floating rate non-derivative borrowings. The sensitivities of these financial instruments to changes in interest rates are as follows:

Fair value interest rate risk

- The Group had listed fixed income securities fair valued at nil at the end of the reporting period (2024: AED 7,566,405 thousand), for which the Group uses a range of DV01 (the dollar value of a basis point) for different time intervals as a key measure of interest rate risk. An absolute measure derived from duration, it indicates the change in price or fair value, expressed in monetary units, caused by a one basis point (0.01%) change in the yield curve. The DV01 for the Group's listed fixed income securities was nil at the end of the reporting period (2024: AED 289,389 thousand).

Notes to the consolidated financial statements (continued)

32 Financial instruments (continued)

c) Market risks (continued)

(ii) Interest rate risk (continued)

Cash flow interest rate risk

- The Group had floating rate non-derivative borrowings of AED 551,700 thousand at the end of the reporting period (2024: AED 5,231,432 thousand). Had the relevant interest rates been higher/lower by 50 basis points, the Group's finance cost would have been higher/lower, therefore the profit for the year would have been lower/higher by AED 10,194 (2024: AED 57,010 thousand).

In the normal course of business, the Group enters into interest rate swaps, where appropriate, to hedge against the net interest rate exposure of the Group's investments in listed fixed income securities and the corresponding borrowings through repurchase agreements, except where the interest rate exposure is deemed to be immaterial or acceptable in relation to the cost of entering into a hedge. At the end of the reporting period, the net carrying amount of the interest rate swaps was immaterial.

The Group entered into interest rate swaps to partially hedge its exposure to fluctuations in cash flows arising from variable interest rates on certain floating rate borrowings. These swaps, designated as cash flow hedges, involve exchanging floating interest rate payments for fixed rate payments, with the interest rate swaps and corresponding loan payments settled concurrently.

d) Operational risks

Operational risk is the risk of direct or indirect loss arising from a wide variety of causes associated with the Group's involvement with financial instruments, including processes, personnel, technology and infrastructure, and from external factors other than credit, market and liquidity risks such as those arising from legal and regulatory requirements and generally accepted standards of corporate behaviour.

The Group's objective is to manage operational risk so as to balance the avoidance of financial losses and damage to the Group's reputation with overall cost effectiveness and to avoid control procedures that restrict initiative and creativity.

The primary responsibility for the development and implementation of controls to address operational risk is assigned to senior management within each business unit. This responsibility is supported by the development of overall Group standards for the management of operational risk in the following areas:

- requirements for appropriate segregation of duties, including the independent authorisation of transactions.
- requirements for the reconciliation and monitoring of transactions.
- compliance with regulatory and other legal requirements.
- documentation of controls and procedures.
- requirements for the periodic assessment of operational risks faced, and the adequacy of controls and procedures to address the risks identified.
- requirements for the reporting of operational losses and proposed remedial action.
- development of contingency plans.
- training and professional development.
- ethical and business standards; and
- risk mitigation, including insurance where this is effective.

Notes to the consolidated financial statements (continued)

32 Financial instruments (continued)

d) Operational risks (continued)

Compliance with Group standards is supported by a programme of periodic reviews undertaken by internal audit. The results of internal audit reviews are discussed with the management of the business unit to which they relate, with summaries submitted to the Audit Committee and senior management of the Group.

e) Capital management

The Board's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. Capital consists of share capital, retained earnings and reserves. The Board of Directors monitors the return on capital as well as the level of dividends to ordinary shareholders in order to maintain a balance between the higher returns that might be possible with higher levels of borrowings and the advantages and security afforded by a sound capital position.

The Group monitors its capital structure based on the covenants required by the Group's lenders of the Revolving Corporate facility ("RCF"). For the year ended 31 December 2025, a gearing ratio was computed and is defined as Borrowings over tangible assets as defined in the RCF agreement dated 9 August 2024.

The Group's gearing ratio reported to the Group's lenders of the Revolving Corporate facility ("RCF") as at 31 December 2025 was 0.12 (31 December 2024: 0.25) and was in compliance of the requirement of maximum of 0.60 times.

f) Fair values

a Fair value hierarchy

The Group uses the following hierarchy for determining and disclosing the fair value of financial assets and liabilities by valuation technique:

Level 1: inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.

Level 2: inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and

Level 3: inputs are unobservable for the asset or liability.

Notes to the consolidated financial statements (continued)

32 Financial instruments (continued)

f) Fair values (continued)

a Fair value hierarchy (continued)

Some of the Group's financial assets and financial liabilities are measured at fair value at the end of each reporting period. As at 31 December, the Group held the following financial assets and liabilities at fair value:

	2025 AED '000	2024 AED '000	Fair value hierarchy	Valuation technique	Sensitivity Analysis	Fair value impact of sensitivities (AED'000)
Financial assets at fair value through profit or loss						
a Listed equity securities	-	1,943,150	Level 1	Quoted bid prices in an active market.		
b Listed fixed income securities	-	7,566,405	Level 1	Quoted bid prices in an active market.		
c Derivative assets	-	215,324	Level 2	The valuation is based on broker quotes.		
d Other investment in equity securities	963	963	Level 3	Valuation is based on Net Asset Values (NAV) and discounted cash flows using unobservable inputs, mainly discount rate, interest rate, share price and market volatilities of the underlying instrument.	± 5% change in NAV	48
e Investment in unquoted funds and private equities	44,600	342,494	Level 3	Valuation is based on Net Asset Values (NAV) of the fund calculated by the fund manager.	± 5% change in NAV	2,230
f Investment in subsidiaries measured at FVTPL	4,760,150	-	Level 3	The valuation of investments in subsidiaries is based on the Net Asset Values (NAV) of the subsidiaries which are in turn based on the fair value of the underlying assets held by each subsidiary. These subsidiaries invest in a range of asset classes, including investment funds, real estate, and healthcare-related assets. The fair value of the underlying financial instruments is determined using valuation techniques appropriate to the nature of each instrument. These techniques include, where applicable: <ul style="list-style-type: none"> • Quoted bid prices in active markets for publicly traded instruments; • Broker quotes for derivative instruments; • Discounted cash flow (DCF) models, incorporating market-based multiples and income approach methodologies; and • Valuation of real estate assets using rental income-based approaches and other relevant observable and unobservable inputs. 	± 5% change in NAV	238,008
Financial liabilities at fair value through profit or loss						
g Derivative liabilities	(82)	(229,698)	Level 2	The valuation is based on broker quotes	± 5% change in broker quotes	4

b Fair values of financial assets and liabilities measured at amortised cost

The fair values of financial assets and liabilities approximate their carrying amounts.

33 Reclassification of prior period

Voluntary change in the presentation of the consolidated statement of profit or loss:

Previously the Group's consolidated statement of profit or loss included items classified by function and nature of expenditures. During the year ended 31 December 2025, the Group has reassessed that the information presented would be more relevant and reliable to the users of the accounts if the presentation is by nature of income and expenses. The comparative information in the consolidated statement of profit or loss has been restated a result of this change in accounting policy in accordance with IAS 8 "Accounting policies, changes in accounting estimates and errors".

34 Non-cash transactions

During the year, the Group met the definition of an investment entity under IFRS 10. As a result, it ceased to be consolidated certain subsidiaries (note 5) and was reclassified as Investment in subsidiaries at fair value through profit or loss. The assets and liabilities were derecognised without giving rise to cash flows.

	2025 AED '000
Cash and bank balances	733,692
Investments in associates and joint ventures	73,820
Goodwill and intangible assets	37,148
Financial investments	10,475,876
